Supplementary Answer Form

DNO Name:	SPM	Question Number:	SP008
Question Date:	14 SEP 2010	Answer Date:	15 SEP 2010
Question Topic:		Derogations	

Original Question No:	SP008	Original Answer Date:	15 SEP 2010
Original Question:	If awarded funding, will you require a derogation, licence consent or exemption, or any change to the regulatory arrangements in order to undertake the Project or cater for contingencies?		
Original Answer:	At this stage it is not anticipated that any derogation, licence consent or exemption, or any change to the regulatory arrangements will be required in order to undertake the Project or cater for contingencies. Should this situation change then we would make Ofgem aware of such requirements as soon as this became apparent.		

Question:	You state that no derogations/exemptions are required "at this stage". Are you able to remove this qualifier? If not, please provide an example(s) of derogations/exemptions that might be required.

Answer:	During the installation and commissioning of monitoring equipement at secondary substations there is the potential of loss of supplies to custumors. If for any reasons this occurs then we shall request that CI/CML penalities due to installation, commissioning or trialling work for this project are waived.
