Original Question:			
Original Answer:			

Question:	It is stated that EON will be funding the roll-out of the 20,000 meters. Is this funding contingent on the LCNF project proceeding?

Answer:	Yes, funding is contingent on LCNF funding. E.ON will still be continuing with pre-mandate smart metering trials but they will not necessarily be concentrated in one area as per MK*Smart*2020.
