EDM 1032

PREVENTING DEATH AND INJURY FROM ACCIDENTAL CARBON MONOXIDE  
POISONING

05.03.2007

Breed, Colin

That this House records its sadness that 16 people have already been reported as having died of accidental carbon monoxide (CO) poisoning in the UK since September 2006; commends the recommendations which were made by the Health and Safety Commission in 2000, including a modest levy on gas suppliers to provide funds for raising awareness of the dangers of CO; recognises the need for regular servicing of appliances by qualified operatives, adequate ventilation, regular chimney sweeping and the use of CO alarms in preventing CO poisoning; further recognises that the gas emergency service should have and use equipment to test appliances for CO; and urges the Government to bring forward proposals to make these recommendations mandatory given the lack of industry movement since 1997, and to make funds available for a body to assist the victims, their families and to fund further research.
