

## Europe Economics report on top-down benchmarking of operating expenditure for GDPCR

**Document Type:** Consultants report

**Ref:** 165/07

**Date of Publication:** 2 July 2007

---

**Target Audience:** Consumers and their representatives, gas distribution networks (GDNs), independent gas transporters (IGTs), gas shippers and suppliers and other interested parties

---

**Overview:**

Europe Economics has carried out top-down benchmarking of the GDNs' operating costs to examine relative efficiency of the GDNs and nature of work comparisons to identify the scope for efficiency improvements for gas distribution as a sector. The attached report sets out their analysis and conclusions. For the avoidance of doubt some of the information used in the top-down benchmarking in this report has been superseded by the information in initial proposals.
