Dear Sirs

#### **CONSULTATION ON TRANSMISSION PRICE CONTROL REVIEW 5**

HSE has previously responded to the Ofgem RPI-X@20 consultation and welcomes Ofgem's new regulatory framework approach for the Transmission Price Control Review (TPCR5).

As you will be aware, HSE is already working with Ofgem and TOs in the development of primary and secondary outputs for safety related issues through the Reliability and Safety Outputs Working Group. We look forward to continuing this engagement. HSE is also keen to be involved in the Price Control Review Forum as a co-regulator in respect of safety of the energy industry

HSE already has a constructive working relationship with Ofgem on the Price Control Review process and we look forward to further productive discussions on this issue.

Yours faithfully

**Colin Connor**
