

Dear Sir/madam,

Please accept this email as an objection to the SSEN application for the inter connector and wind farm that is proposed to be built on the island of Shetland Scotland.

I have lived on Shetland all my life and can't believe this is going to happen to our beautiful island.

The whole idea that Shetland is going to be USED as a wind farm to supply the uk with electricity is terrible. We in Shetland have no benefit from this. The scale of the wind farm is massive, far too big for our island. The windmills will be towering above peoples houses, ruining our land. The impact on our local wildlife and bird life will be hellish.

This is not a project in anyway to help Shetland our beautiful home. This is a project of pure greed and will line the pockets of the money making companies involved.

Please I beg you do not give permission for this project. It really will be the worst thing that could happen for our beautiful island of Shetland.

I would be grateful if you could acknowledge my objection.
