

Internal Only

Dear Sir or Madam,

Firstly, I would like to thank you for the opportunity to contribute to the consultation in respect to the RIIO -2 Draft determinations.

As a company that strives to be a leader in the energy transition we fully stand behind Ofgem's vision around achieving Net Zero, secure and reliable networks and providing the best value to end-consumers.

We are concerned however, about the way the suggestions laid out in the RIIO-2 draft determinations may impact on the UK's ability to be a leading force in enabling the energy transition.

We have discussed this topic widely within our business and have summarised Siemens Energy Limited's response to your draft determinations in the enclosed document, which aims to explain our areas of concern.

While we are not regulated by Ofgem, we are part of this industry and have a great interest in seeing it thrive and deliver for its customers.

We would be happy to explain our submission in more detail and support further engagement between Ofgem and the supply chain if that would be of benefit.

Could I ask that this submission remains confidential at this stage.

Thank you

With best regards,  
Stephen Scrimshaw
