

The Pathway of an ECO measure

Audits can occur at any point up until final determination

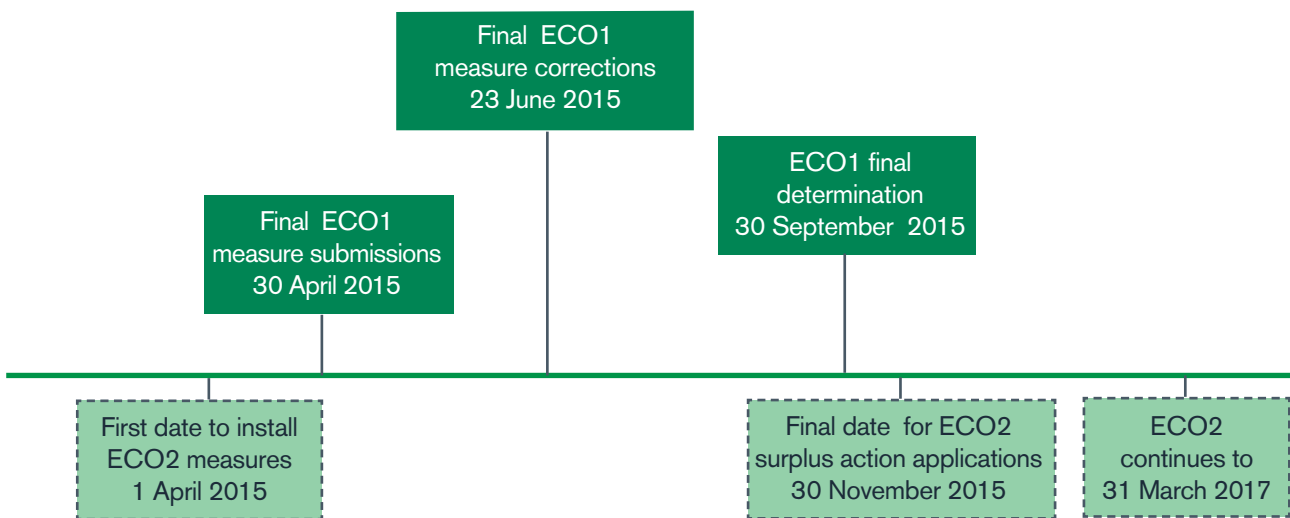

ECO Toolkit

The ECO Toolkit provides quick links to some key resources and information you might find useful.

Process Guides	ECO Tools	General Info
Our ECO Guidance	A tool to identify eligible CSCO areas	Supplier contact details
Our measures table	List of appropriate guarantees	FAQs for installers
The requirements for Affordable Warmth Group (AWG) eligibility	The Boiler Assessment Checklist for qualifying boilers	Technical Monitoring questions
Our example of a notice of receipt of an application for extension	The Electric Storage Heater assessment check list	Our reporting simplification work
Our example of a decision to refuse or revoke approval of a measure	The Virgin Loft Insulation Declaration template	ECO progress reports

Key Milestones

ECO1

ECO2

Guidance

As administrators of the Energy Company Obligation (ECO), we publish guidance for suppliers and the supply chain on our website.
