

To: All holders of an electricity supply licence

**Electricity Act 1989
Section 11A (2)**

**Notice of statutory consultation on a proposal to modify the standard condition
19A of the Electricity Supply Licence**

1. The Gas and Electricity Markets Authority ('the Authority')¹ proposes to modify the standard conditions of all electricity supply licences granted or treated as granted under section 6(1)(d) of the Electricity Act 1989 by amending standard licence condition 19A Financial information reporting (also known as the Consolidated Segmental Statements (CSS)) under section 11A (2).
2. This notice of statutory consultation is published alongside a consultation setting out our proposed modifications (Schedule 1 below) to the Electricity Supply Licence. A detailed description of the reasons for and the effects of these licence modifications has been published by the Authority in the accompanying document [Final proposals and statutory consultation - Reviewing the Consolidated Segmental Statement | Ofgem](#).
3. We are proposing these modifications because the structure of the market has changed considerably since the CSS was first introduced in 2009 through standard licence condition 19A. Our proposals are intended to ensure the CSS provides transparency and market intelligence, supports external reporting, ensures consumers are treated fairly and supports policy development.
4. The changes we are proposing fall into three areas: eligibility (vertical integration and customer number threshold), auditing and additional information. The effect of these proposed modifications is to:
 - increase the market coverage of the CSS so that we can capture a fuller picture of profitability in the retail energy sector. In addition to vertically integrated suppliers, we have proposed expanding the CSS by including other suppliers (ie those that hold a supply licence only).
 - reduce the customer number threshold to 50,000 domestic customers based on meter points and capturing at least 90% of non-domestic customers.²
 - remove the current requirement for suppliers to audit the CSS before it is submitted to us. We will, however, retain the right to request one if we consider the CSS has not been prepared in accordance with the licence conditions, guidelines and/or template.
 - request additional reporting of categories and segments and introduce a segmental balance sheet and customer numbers table³.
5. A copy of the proposed modifications and other documents referred to in this Notice have been published on our website (www.ofgem.gov.uk). Alternatively, they are available from foi@ofgem.gov.uk.

¹ The terms "the Authority", "we" and "us" are used interchangeably in this document.

² The current requirement is at least 250,000 domestic or non-domestic customers.

³ Our proposal for additional information are outlined in the statutory consultation document.

6. Any representations with respect to the proposed licence modifications must be made on or before 11 August 2021 by email to css@ofgem.gov.uk.
7. We normally publish all responses on our website. However, if you do not wish your response to be made public then please clearly mark it as not for publication. We prefer to receive responses in an electronic form so they can be placed easily on our website.
8. If we decide to make the proposed modifications they will take effect not less than 56 days after the decision is published.
