Gas Act 1986

Section 23(2)

Notice of statutory consultation on a proposal to modify the Special Conditions of the Gas Transporter Licence held by National Grid Gas Plc

1. The Gas and Electricity Markets Authority ('the Authority')¹ proposes to modify the special conditions of the Gas Transporter Licence held by National Grid Gas Plc (the "licensee") granted or treated as granted under section 7 of the Gas Act 1986 by amending Appendix 2 (Licence Baseline Exit Capacity) in Part E (Zero Licence Baseline entry and exit capacity points) of Special Condition 9.13 (Capacity Requests, Baseline Capacity and Capacity Substitution).
2. We are proposing this modification to combine two NTS Bacton Interconnector exit points, namely: Bacton (IUK) and Bacton (BBL) Aggregated System Entry point ('ASEP') into a single exit point, Bacton (exit) IP in National Grid Gas's Gas Transporter Licence Special Conditions.
3. The effects of this proposed modification is to replace the current "Bacton (IUK) and Bacton (BBL)" entries with a single, new exit point, "Bacton (exit) IP" to Appendix 2: Licence Baseline Exit Capacity, in Part E of Special Condition 9.13. The licence baseline capacity for the combined licence exit point (Bacton (exit) IP) will be 651.68 GWh/day.
4. A copy of the proposed modification and other documents referred to in this Notice have been published on our website (www.ofgem.gov.uk). Alternatively, they are available from foi@ofgem.gov.uk.
5. Any representations with respect to the proposed licence modification must be made on or before 23 August 2021 to: Lea Slokar by email Gas.TransmissionResponse@ofgem.gov.uk.
6. We normally publish all responses on our website. However, if you do not wish your response to be made public then please clearly mark it as not for publication. We prefer to receive responses in an electronic form so they can be placed easily on our website.
7. If we decide to make the proposed modification it will take effect not less than 56 days after the decision is published.
