Dear Timothy,

RIIO-2 Strategic Innovation Fund – Statutory Consultation on Licence Changes

Thank you for the opportunity to respond to this consultation. Northern Gas Networks (NGN) has been actively involved in the working groups relating to the Strategic Innovation Fund (SIF) and welcomes the opportunity to provide feedback on the proposed modifications to the licence conditions that are required to implement the SIF.

We have undertaken a review of the proposed modifications to the licence conditions required to implement the SIF and are in agreement with the proposed modifications. However, to note as a specific point of reference the Definitions and Interpretations and Special Condition 5.5 (5.5.10) the modifications state that the Licensee must comply with the SIF Governance Document. Whilst the SIF Governance Document as yet to be formally published we expect this modification to be suitable.

Please contact me should you have any queries about this response.

Yours sincerely

By email

Joanna Ferguson
Head of Market Service & Regulatory Compliance
