Part B: Publication of the value of the terms $ADJR_t$ and $SOIAR_t$

- 5.2.9 The value of the terms $ADJR_t$ and $SOIAR_t$ will be published by the Authority no later than 30 November prior to each Regulatory Year. The published or republished values for the terms $ADJR_t$ and $SOIAR_t$ must be used by the licensee when setting Balancing Services Activity related charges in accordance with Special Condition 4.1 (System Operator Internal Revenue Restriction).
- 5.2.10 The Authority may re-publish the values of the terms $ADJR_t$ and $SOIAR_t$, before the end of January prior to the Regulatory Year t.
- 5.2.11 Before publishing or re-publishing the value of the terms $ADJR_t$ and $SOIAR_t$, the Authority will:
- (a) send to the licensee:
 - (i) a notice stating the value for $ADJR_t$ and $SOIAR_t$ that it proposes to publish; and

- (ii) a copy of the ESO Price Control Financial Model, which will contain the data used to calculate the value proposed for $ADJR_t$ and $SOIAR_t$; and
- (b) specify a period during which representations may be made on the value of $ADJR_t$ and $SOIAR_t$, which will not be less than 14 days.

Part C: What if the Annual Iteration Process is not completed by 30 November?

- 5.2.12 If the Authority does not publish a value for the terms $ADJR_t$ and $SOIAR_t$ by 30 November prior to any Regulatory Year, then the Annual Iteration Process will not have been completed and the provisions set out in paragraphs 5.2.13 and 5.2.14 will apply.
- 5.2.13 The Authority will complete the Annual Iteration Process as soon as is reasonably practicable after 30 November by publishing a value for the terms $ADJR_t$ and $SOIAR_t$.
- 5.2.14 In the intervening period (between the 30 November and the date the value of the terms $ADJR_t$ and $SOIAR_t$ is published under paragraph 5.2.13), the value of $SOIAR_t$ will be held to be equal to a value ascertained by:
- (a) taking a copy of the ESO Price Control Financial Model in its state following the last completed Annual Iteration Process or re-publication which, for the avoidance of doubt, will exclude the effect of any functional modifications under paragraph 5.1.3 of Special Condition 5.1 (Governance of the ESO Price Control Financial Instruments) made after the completion of that Annual Iteration Process;
 - (b) using the selection facilities on the User Interface sheet contained in that copy of the ESO Price Control Financial Model to select:
 - (i) the name of the licensee; and
 - (ii) the Regulatory Year equating to the Regulatory Year t ;
 - (c) pressing the “Run for One” macro button on the “UserInterface” sheet; and
 - (d) recording the value of the terms $ADJR_t$ and $SOIAR_t$ for the licensee that is shown as an output value in the “SavedResults” sheet.

Part D The final year of the ESO Annual Iteration Process and other clarifications

- 5.2.15 The last Regulatory Year in which there will be an Annual Iteration Process for the ESO Price Control Financial Model is 2024/2025 for the purpose of determining the value of the terms $ADJR_t$ and $SOIAR_t$ for Regulatory Year 2025/26.
- 5.2.16 For the avoidance of doubt, neither:
- (a) an Annual Iteration Process for the ESO Price Control Financial Model carried out in accordance with this condition, including in particular the steps set out in Part A; nor

(b) a change to the Regulatory Year included in the name of and text within the ESO Price Control Financial Model (as referred to at paragraphs 5.1.12(b) and (c) of Special Condition 5.1 (Governance of the ESO Price Control Financial Instruments),

will constitute a modification of the ESO Price Control Financial Model within the meaning of Part C of Special Condition 5.1.

Where any PCFM Variable Values are revised for years earlier than Regulatory Year t , the effect of using those revised values in the Annual Iteration Process will, subject to a Time Value of Money Adjustment, be reflected in the calculation of the terms $ADJR_t$ and $SOIAR_t$ for Regulatory Year t and, for the avoidance of doubt, it will not have any retrospective effect on a previously published value of the terms $ADJR_t$ and $SOIAR_t$.

Part E The PCFM Guidance

- 5.2.17 The licensee must comply with the PCFM Guidance when completing the Annual Iteration Process.
- 5.2.18 The Authority will issue and amend the PCFM Guidance by direction.
- 5.2.19 The Authority will publish the PCFM Guidance on the Authority's Website by the PCFM functional change cut-off date set out in the ESO Price Control Financial Handbook.
- 5.2.20 The PCFM Guidance will make provision about:

- (a) the text of the amended PCFM Guidance;

- (b) the date on which the Authority intends the amended PCFM Guidance to come into effect;
- (c) the reasons for the amendments to the PCFM Guidance; and
- (d) a period during which representations may be made on the amendments to the PCFM Guidance, which will not be less than 28 days.
