Dear Timothy

Statutory Consultation for the RIIO-ED1 Green Recovery Licence Modification

SP Energy Networks (SPEN) owns and operates the electricity distribution networks in the Central Belt and South of Scotland (SP Distribution) serving 2 million customers as well as (SP Manweb) which serves 1.5 million customers in Merseyside and North Wales. We are pleased to have been awarded more than £60m of funding through the Green Recovery investment programme across both our licences.

We are satisfied that the proposed modifications to the RIIO-ED1 licence conditions for DNOs to implement the Green Recovery Scheme are effective and have no further comments to make.

Please do not hesitate to contact us if you have any further queries.

Yours sincerely

Lynne Bryceland
Policy and Licence Manager
