Dear Dale,

**Statutory consultation on amendments to the RIIO2 Licence**

Thank you for the opportunity to respond to this consultation. We note that the changes relate to a number of sources and are intended to come into effect on 1 April 2021.

We have provided an issues log with detailed comments relating to the Price Control Financial Model and handbook, and the NARM handbook and workbook and Special Conditions specific for NGN. We agree that removal of transitional elements of Standard Condition 3 are consistent with the approach also proposed in the consultation relating to Licence fee cost recovery principles are in line with current operational arrangements. Other changes to Standard Conditions and Standard Special Conditions to reflect Consumer Scotland and clarity on treatment of licensees with more than one licence improve accuracy and clarity.

Please contact me should you have any queries about this response.

Yours sincerely
