18 March 2022

Dear Nicola,

Statutory consultation on proposals to modify licence conditions related to the switching programme

Thank you for the opportunity to respond to this consultation. Northern Gas Networks (NGN) continues to actively engage with both the Switching Programme and the Retail Code Consolidation Significant Code Reviews (SCRs) and welcomes the opportunity to provide feedback at this point in the programmes. NGNs response is primarily in relation to the proposed Gas Transporter (GT) Licence modifications.

Question 3: Do you agree that the proposed changes to the Gas Transporter Standard Special Conditions (Part A) will ensure the licence reflects the necessary conditions for implementation of the Switching Programme?

We agree that the proposed changes are currently fit for purpose.

We would like to add that we believe that these may require further consideration and revision once the transition to REC has completed.

Please contact me should you have any queries about this response.

Yours sincerely

By email

Tracey Saunders
Market Services Manager (Industry Codes)
