Introduction

D17.1 The purpose of this condition is to set an obligation on transmission owners to coordinate and cooperate with transmission licensees, the ISOP and electricity distributors in order to build a common understanding of where actions taken by one transmission licensee, the ISOP, or electricity distributor could have cross-network impacts (both positive and negative). This should include at a minimum sharing information and developing processes that aim to achieve optimal efficiency across the total system. The further purpose is to set an obligation on transmission owners to consider actions proposed by transmission system users that seek to advance the efficient and economical operation of its own network.

Part A: Whole electricity system coordination

D17.2 The licensee must coordinate and cooperate with transmission licensees, the ISOP, and electricity distributors to seek to identify actions and processes that advance the efficient and economical operation of the total system.

D17.3 The licensee must consider actions proposed by transmission system users which seek to advance the efficient and economical operation of its network.

D17.4 The licensee must use all reasonable endeavours to implement actions or processes identified or proposed under paragraphs D17.2 or D17.3 of this condition that:

- (a) will not negatively impact its network; and
- (b) are in the interest of the efficient and economical operation of the total system.

Part B: Demonstrating compliance with whole electricity system obligations

Transmission Licence: Standard Conditions – 10 June 2025

D17.6 The licensee must keep up to date and is required to publish its coordination register (as updated) on its website at least once every 12 months from the date of initial publication under paragraph D17.5 of this condition.

Part C: Whole Electricity System Guidance

D17.7 In satisfying the requirements of this condition the licensee must have due regard to the Whole Electricity System Guidance.

Part D: Procedure for issuing and revising Whole Electricity System Guidance

D17.8 Before issuing the Whole Electricity System Guidance under this condition the Authority by Notice given to the licensee will:

- (a) state that it proposes to issue the Whole Electricity System Guidance, and specify the date on which it proposes that the document should take effect;
- (b) set out the text of the Whole Electricity System Guidance and the Authority's reasons for proposing to issue it; and
- (c) specify the date (which must not be less than a period of 28 days from the date of the Notice) by which representations with respect to the proposed Whole Electricity System Guidance may be made.

D17.9 The Authority will consider any representations that are duly made and not withdrawn.

D17.10 The requirements of paragraphs D17.8 and D17.9 may be satisfied by action taken before, as well as action taken after, the commencement of this condition.

D17.11 In paragraph D17.8 of this condition reference to "issuing the Whole Electricity System Guidance" includes issuing any revision of the document and the procedure provided for under paragraph D17.8 will apply to any such revision.
