Dear Andrew,

OVO response to Ofgem's Call for Input on proposed updates to TDCVs

Thank you for providing us with the opportunity to comment on Ofgem's proposal to update the gas and electricity TDCVs.

OVO supports the proposal to exclude 2020 data from the analysis. We agree that this approach delivers an outcome that is more aligned with the long-term trends of declining consumption for domestic consumers. Given the current focus on the level of 'typical' bills in communications and reporting on energy costs, we believe it is important that the underlying assumptions are as accurate and up to date as possible, and reflective of usual consumption levels.

Should you have any questions please contact policy@ovoenergy.com.

Kind regards,

Nicola Roberts

Senior Regulation Manager, OVO Energy
