**Electricity Act 1989
Section 11A(1)(a)**

**Modification of the amended standard conditions of the offshore electricity
transmission licence held by Diamond Transmission Partners Galloper Limited**

1. Diamond Transmission Partners Galloper Limited is the holder of an offshore electricity transmission licence ('the Licence') granted or treated as granted under section 6(1)(b) of the Electricity Act 1989 ('the Act').
2. Under section 11A(2) of the Act the Gas and Electricity Markets Authority ('the Authority')¹ gave notice on 11 November 2022 ('the Notice') that we propose to modify:
 - a) The definition of 'Competent Authority' and 'Exceptional Event' in Amended standard licence condition E12-A1, and
 - b) Part C of amended standard licence condition E12-J4 of the Licence.
3. We stated that any representations to the modification proposal must be made on or before 9 December 2022.
4. A copy of the Notice was sent to the Secretary of State in accordance with section 11A(4)(b) of the Act, and we have not received a direction that the change should not be made.
5. We received seventeen responses (representing thirty-three Licensee's/Interested Parties) to the Notice, which we carefully considered. We have placed all non-confidential responses that specifically responded on these modification proposals on our website. Our response to these comments is set out in the accompanying letter.
6. We are making these licence changes to clarify that Offshore Transmission Owners ('OFTOs') can seek to recover costs incurred to connect a third party to the OFTOs system, including connections to provide stability on the National Electricity Transmission System ('NETS'), for example, a third party providing a transmission system service.
7. The effect of the modifications will be to make it clear that OFTOs can seek to recover costs where the OFTO has entered into an agreement with the system operator under Standard Licence Condition ('SLC') E17 and the OFTO incurs costs as a result of that agreement.
8. Where an application for permission to appeal our decision is made to the Competition and Markets Authority ('CMA') under section 11C of the Act, Rule 5.7 of the Energy Licence Modification Appeals: Competition and Markets Authority Rules² requires that

the appellant must send to any relevant licence holders who are not parties to the appeal a non-sensitive notice setting out the matters required in Rule 5.2. The attached Schedule 2 provides a list of the relevant licence holders in relation to this modification. Section 11A(10) of the Act sets out the meaning of 'relevant licence holder'.

Under the powers set out in section 11A(1)(a) of the Act, we hereby modify the definition of 'Competent Authority' and 'Exceptional Event' in Amended standard licence condition E12-A1 and Part C of amended standard licence condition E12-J4 of the offshore electricity transmission licence of Diamond Transmission Partners Galloper Limited in the manner specified in attached Schedule 1.

This decision will take effect from 23 August 2023.

This document is notice of the reasons for the decision to modify the offshore electricity transmission licence held by Diamond Transmission Partners Galloper Limited as required by section 49A(2) of the Act.
