Dear Colleague,

Certification under the ownership unbundling requirements of the Electricity Act 1989: Decision of the Gas and Electricity Markets Authority (the Authority)¹

TC Moray East OFTO Limited (the **Applicant**) submitted an application under section 10B(2) of the Electricity Act 1989 (the **Electricity Act**) on 3 October 2022, requesting to be certified pursuant to the ownership unbundling requirements.

This letter sets out the Authority's decision on the Applicant's application for certification, under section 10D of the Electricity Act.

Application for certification

The Applicant is expected to become a licensed offshore transmission owner (**OFTO**) under section 6(1)(b) of the Electricity Act and is ultimately controlled by International Public Partnerships Limited (**INPP**) and Hunt Companies, Inc. (**Hunt**).

The Applicant requested certification on the first certification ground, which is set out in section 10E(3) of the Electricity Act. The first certification ground is that the Applicant meets the ownership unbundling requirement in section 10F of the Electricity Act.

Under section 10B(3) of the Electricity Act, if the Applicant is controlled by a person from a country outside the United Kingdom, the Authority must, as soon as is reasonably practicable, notify the Secretary of State and enclose any further information which, at the time of the notification, the Authority has in its possession and thinks is relevant to the

question of whether the security of energy supplies in the United Kingdom would be put at risk by the certification of the applicant.

The Authority has informed the Secretary of State that INPP and Hunt are the ultimate controllers of the Applicant. INPP is registered in Guernsey, and Hunt is incorporated and registered in the USA, both of which are countries outside the United Kingdom for the purposes section 100 of the Electricity Act and this certification assessment. We notified the Secretary of State on 11 November 2022 in accordance with section 10B(3) of the Electricity Act. On 21 December 2022, the Secretary of State concluded that certifying the Applicant would not put the security of electricity supplies in the United Kingdom at risk.

The Authority is required to apply five tests set out in section 10F of the Electricity Act in order to determine whether the Applicant meets the ownership unbundling requirement:

The **first test** is that the applicant—

- (a) does not control a relevant producer or supplier;
- (b) does not have a majority shareholding in a relevant producer or supplier; and
- (c) will not, on or after the relevant date, exercise shareholder rights in relation to a relevant producer or supplier.

The **second test** is that, where the applicant is a company, partnership or other business, none of its senior officers has been, or may be, appointed by a person who—

- (a) controls an electricity undertaking which is a relevant producer or supplier; or
- (b) has a majority shareholding in an electricity undertaking which is a relevant producer or supplier.

The **third test** is that, where the applicant is a company, partnership or other business, none of its senior officers is also a senior officer of an electricity undertaking which is a relevant producer or supplier.

The **fourth test** is that the applicant is not controlled by a person who controls a relevant producer or supplier.

The **fifth test** is that the applicant is not controlled by a person who has a majority shareholding in a relevant producer or supplier.

Certification decision

Our decision is that the Applicant is certified as independent on the basis that it has satisfied each of the five tests set out in section 10F of the Electricity Act and therefore met the ownership unbundling requirement under section 10F(1).

On the date of licence grant, and in accordance with sections 10H(1) and 10H(2) of the Electricity Act, the Applicant will become an OFTO licence holder and will be designated as an electricity transmission system operator in accordance with sections 10H(1) and 10H(2) of the Electricity Act.

In accordance with section 10D(4) of the Electricity Act, the Authority hereby notifies the certification of the Applicant to the Applicant and the Secretary of State.

In accordance with section 10I of the Electricity Act, the Authority will monitor whether the basis on which it decided to certify the Applicant continues to apply following the Authority's decision and, if appropriate, will review its certification decision.

Attached to this letter is a copy of the certification decision made by the Authority.

Yours sincerely,

Yvonne Naughton
