

Hi

We took over the pub in August (REDACTED owned) we were and still are unable to get any energy contracts due to us only being in operation for 6 months, also a number of suppliers (REDACTED being one) won't take electricity on if there is a 30 minute metre.

REDACTED agreed to keep the electric on and we are paying 98p day and 63 night which is clearly to take advantage of the government scheme.

Rates have come down significantly and we are not looking at around 35p for electric and 9p for gas however this can only be done if REDACTED keep the contracts in their name.

Many thanks

REDACTED
