

To: All holders of an electricity supply licence

**Electricity Act 1989
Section 11A(1)(b)**

Modification of the standard conditions of all electricity supply licences

1. Each of the licensees to whom this document is addressed has a supply licence which has been granted or treated as granted under section 6(1)(d) of the Electricity Act 1989 (the Act).
2. Under section 11A(2) of the Act the Gas and Electricity Markets Authority ('the Authority')¹ gave notice on 26 July 2023 ('the Notice') that we propose to modify standard conditions
 - 27.5, by adding new licence condition 27.5B;
 - 27.8A; and
 - 31G.3, by adding new licence conditions 31G.3A - 31G.3E.

We stated that any representations to the modification proposal must be made on or before 23 August 2023.

3. A copy of the Notice was sent to the Secretary of State in accordance with section 11A(4)(b) of the Act, and we have not received a direction that the change should not be made.
4. We received 53 responses to the Notice, which we carefully considered. We have placed all non-confidential responses on our website. Our response to these comments is set out in the accompanying decision document.
5. It is necessary to make a number of minor alterations to the modifications set out in the Notice. These alterations are shown in yellow highlight and double underlined in the attached Schedule 1. The reasons for any differences between the modifications set out in the Notice and the modifications reflected in Schedule 1 is the need to address minor issues and corrections raised in consultation responses.
6. We are making these licence changes to drive up consumers standards across the industry.
7. The effect of the modifications will be to make it easier for domestic customers to contact their supplier and to introduce additional requirements for suppliers to assist customers struggling with their bills. We are also requiring suppliers to provide their customers with information on their customer service performance. A more detailed description of the reasons for, and effects of, these licence modifications can be found in our accompanying decision document.
8. Where an application for permission to appeal our decision is made to the Competition and Markets Authority (CMA) under section 11C of the Act, Rule 5.6 of the Energy Licence Modification Appeals: Competition and Markets Authority Rules²

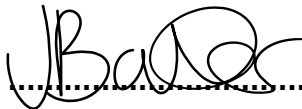

¹ The terms "the Authority", "we" and "us" are used interchangeably in this document.

² CMA70 https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/655601/energy-licence-modification-appeals-rules.pdf

requires that the appellant must send to any relevant licence holders who are not parties to the appeal a non-sensitive notice setting out the matters required in Rule 5.2. The attached Schedule 2 provides a list of the relevant licence holders in relation to this modification. Section 11A(10) of the Act sets out the meaning of 'relevant licence holder'.

Under the powers set out in section 11A(1)(b) of the Act, we hereby modify the standard licence conditions for all electricity supply licences in the manner specified in attached Schedule 1. This decision will take effect from 14 December 2023.

This document is notice of the reasons for the decision to modify the electricity supply licences as required by section 49A(2) of the Act.
