Response to RIIO-GD1 Close out: Consultation on proposed adjustments¹

Dear Neil,

Thank you for the opportunity to respond to the above consultation.

SGN have completed a review of all of the topics discussed in this consultation; IMRRP, FPNES, Interruptions and Shrinkage and Environmental Emissions Incentive. Following our careful review, we are comfortable with the decisions and values presented by Ofgem to close out the remaining topics within RIIO-GD1 and agree with all the accompanying calculations.

Best regards,

David Handley
