

To: All holders of an electricity supply licence

**Electricity Act 1989
Section 11A(1)(b)**

Modification of the standard conditions of all electricity supply licences

1. Each of the licensees to whom this document is addressed has an electricity supply licence which has been granted or treated as granted under 6(1)(d) of the Electricity Act 1989 (the Act).
2. Under section 11A(2) of the Act the Gas and Electricity Markets Authority ('the Authority')¹ gave notice on 11 December 2023 ('the Notice') that we propose to modify standard condition 19A Financial Information Reporting (also known as the Consolidated Segmental Statements (CSS)). We stated that any representations to the modification proposal must be made on or before 12 January 2024.
3. A copy of the Notice was sent to the Secretary of State in accordance with section 11A(4)(b) of the Act, and we have not received a direction that the change should not be made.
4. We received 15 responses to the Notice, which we carefully considered. We have placed all non-confidential responses on our website. Our response to these comments is set out in our decision document.
5. It is necessary to make a number of minor alterations to the modifications set out in the Notice. These alterations are shown in yellow highlight in the attached Schedule 1. The reasons for any differences between the modifications set out in the Notice and the modifications reflected in Schedule 1 are to correct minor typographical errors, address minor issues and corrections raised in consultation responses.
6. We are making these licence changes because compared with when it was introduced, the CSS covers fewer companies and therefore is less effective at providing a broadly representative view of the energy supply sector's profitability.
7. The effect of the modifications will be to increase the market coverage of the CSS by removing the condition that a supplier must also hold a generation licence and by reducing the customer number threshold based on meter points.
8. Where an application for permission to appeal our decision is made to the Competition and Markets Authority (CMA) under section 11C of the Act, Rule 5.6 of the Energy Licence Modification Appeals: Competition and Markets Authority Rules² requires that the appellant must send to any relevant licence holders who are not parties to the appeal a non-sensitive notice setting out the matters required in Rule 5.2. The attached Schedule 2 provides a list of the relevant licence holders in relation to this modification. Section 11A(10) of the Act sets out the meaning of 'relevant licence holder'.

¹ The terms "the Authority", "we" and "us" are used interchangeably in this document.
