Response to statutory consultation on National Energy System Operator licences and other impacted licences

Dear Sir/Madam

MaresConnect Limited (**MCL**) welcomes the Department for Energy Security and Net Zero's (**DESNZ**) and Ofgem's statutory consultation on National Energy System Operator licences and other impacted licences published on 28 March 2024 (the **Consultation**).

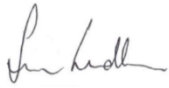

MCL is the developer of the 750MW MaresConnect Interconnector project between GB and Ireland (**MaresConnect**), which is currently being assessed by Ofgem as part of its initial third cap and floor window (**W3**). MaresConnect is a point-to-point interconnector between Bodelwyddan in Wales and North Dublin in Ireland. Further information can be found on our website at www.maresconnect.ie.

We do not have any concerns to raise in relation to the proposed changes to the Electricity Interconnector Standard Licence Conditions.

We are available to discuss further any of the points made above.

Continued/2...

Yours sincerely,

Simon Ludlam
CEO

Mares Connect Limited
