Date: **25 April 2025**

Dear Sir/Madam,

Great Britain Fuel Mix Disclosure 2025 – Renewable Energy Guarantees of Origin (REGOs)

We are contacting you to make you aware of the Great Britain (GB) Fuel Mix Disclosure (FMD) deadline for 2025 and to set out the actions that may be required of you as part of this process with regard to REGOs.

Fuel Mix Disclosure Overview

The Electricity (Fuel Mix Disclosure) Regulations 2005 (SI 2005 No. 391) introduced a requirement on all electricity suppliers in Great Britain to disclose to their customers, and potential customers, the mix of fuels used to generate the electricity supplied annually, provided electricity is supplied for a full disclosure period (1 April – 31 March). Suppliers must disclose this information by **1 October annually**. This Regulation was introduced into electricity suppliers' standard licence conditions (SLC); originally SLC 30A. Condition 30A has since been removed and replaced by SLC 21¹, however the context of the condition has not changed.

Renewable Source Electricity - Evidence Sources to be Held by Suppliers

For this disclosure period, **1 April 2024 to 31 March 2025**, SLC 21 requires that the following evidence sources held by electricity suppliers at **midday 1 July 2025** can be used to prove renewable electricity purchased for supply to customers in GB:

- Renewable Energy Guarantees of Origin (REGOs) – must be held relating to generation in the disclosure period in a supplier's account by midday 1 July 2025. At **midday on 1 July 2025** all REGOs for the disclosure period 1 April 2024 – 31 March 2025 that are not 'retired' or 'revoked', held in a supplier account on the Renewables and CHP Register, will be 'redeemed'. We do this to capture REGOs used for GB FMD. Once redeemed, the REGOs will not be present within your account, however you will still be able to view them in the 'Reports' section of your account.

¹

- Non-EU Member State imports/electricity exchange purchases – suppliers must hold figures that identify the amount of electricity produced from each particular energy source.
- No evidence held – suppliers must apportion the electricity purchased for supply without evidence between energy sources to the percentages provided for under the Fuel Mix Disclosure Data Table. This table is published by the Department for Energy Security and Net Zero (DESNZ) on its website by **1 August 2025**.

Full information on the evidence requirements is given in SLC 21 and the [Fuel Mix Disclosure by Electricity Suppliers in Great Britain – Guidelines²](#).

Actions for Suppliers

Please complete and inform us of the following by **31 May 2025**:

- Confirmation that you are intending to participate in the GB Fuel Mix Disclosure period.

Please note: If you don't confirm this with Ofgem by the deadline we will assume that you do not wish to participate and **will remove you** from the disclosure period.

- Confirm if **all REGOs** in your account are being used for GB FMD **and if not** confirm which REGOs need to be removed from your disclosure.

Please note: If you don't confirm this by the deadline we will assume that all REGOs held in the account, including those for use in Northern Ireland/Republic of Ireland, are to be used in the GB Fuel Mix disclosure period

- Check you have all the REGOs you require for the GB FMD period are held within your account **well in advance of the midday 1 July 2025**.

If you have any REGOs for the purposes of the Northern Ireland/ Republic of Ireland Fuel Mix Disclosures complete the following:

- Create a supplier account, which is separate to your current one and transfer those REGOs into this account for the Fuel Mix Disclosure period held for Northern Ireland.

It is the responsibility of suppliers to engage with any relevant generators to ensure that REGOs are transferred to them in time for the midday 1 July deadline. **Ofgem does not do this on behalf of suppliers.**

If you experience any issue, in the first instance please contact the RE Supplier Compliance Team. Contact details are provided at the head of this letter.

Yours faithfully,

James Crawford
Head of Compliance
