For the attention of Ofgem,

**Re: Consultation - Proposed Directions to Market-wide Half-Hourly Settlement (MHHS)
Participants**

Thank you for being afforded the opportunity to respond to this consultation.

From a DCUSA Limited perspective we believe that the existing obligations (be they under the BSC for this Programme or the DCUSA change process) would already be sufficient, however we are supportive of the additional code body direction which provides clarity on this aspect of the MHHS Programme.

We confirm that we are happy for our response to be openly shared.

Yours faithfully,

Simon Vicary

Chair of the DCUSA Board
