Dear Euan,

Condition 31E (C31E) Distribution Flexibility Services Procurement Statement

Advanced Electricity Networks Limited is a licensed Independent Distribution Network Operator. We were granted our distribution license in January 2024 by Ofgem.

Advanced Electricity Networks Limited did not purchase flexibility last regulatory year (23/24) and does not intend to purchase flexibility this regulatory year (24/25), given our current small status and judgement that it will not be required.

Yours faithfully,

Andrew Blincow
Managing Director
