Hello

Hope you're well.

Thank you for the email below. We are reviewing the consultation and guidance that has been provided and hope you can clarify something for us. Namely from the attached between pages 9 and 10 it might be missing 'Proposed Wording' for 1.40, and the associated 'Justification' is missing a list mentioned in the text. If these are omitted, please let us know what is missing so we can conduct a full review internally.

Look forward to hearing from you.

Kind regards
