Dear Company Secretaries,

September 2025 SIF Funding Direction

The Strategic Innovation Fund (SIF) is a funding mechanism for the Electricity System Operator, Electricity Distribution and Transmission, Gas Transmission and Distribution sectors, within the RIIO-2¹ network price control.²

The purpose of this SIF Funding Direction³ is to:

1. Implement our recent decisions to distribute SIF Funding to the Cycle 3 projects that were awarded funding. Cycle 3 Discovery, Alpha and Beta were awarded funding on 22nd September 2025⁴.

This funding direction will not be reconciling SIF Funding Returns from any previously completed projects. SIF Funding Returns will now form part of an annual reconciliation process, capturing the regulatory year cycle to 31 March each year. In this annual SIF Funding Return, all projects completed within the relevant regulatory year and requiring to return unspent SIF funds will be included.

¹ RIIO stands for (Revenue = Incentives + Innovation + Outputs). It is Ofgem's network price control framework.

RIIO-2 means the network price control which runs between 1 April 2021 and 31 March 2026 for gas transporter and electricity transmission licensees, and between 1 April 2023 and 31 March 2028 for electricity distribution licensees.

² Fuller details regarding the SIF can be found here: <https://www.ofgem.gov.uk/energy-policy-and-regulation/policy-and-regulatory-programmes/network-price-controls-2021-2028-riio-2/network-price-controls-2021-2028-riio-2-riio-2-network-innovation-funding/strategic-innovation-fund-sif>

³ Capitalised terms not otherwise defined in this document have the meaning given to them in Appendix 1 of the SIF Governance Document.

Accordingly, this Funding Direction sets out the amount that National Energy System Operator Limited (NESO) and National Gas Transmission (NGT) will recover from its customers in relation to the SIF. It also specifies the net amounts to be transferred between NESO and other electricity Funding Parties (i.e. electricity network licensees); and NGT and other gas Funding Parties (i.e. gas network licensees) in relation to their SIF Projects.

NESO must transfer funds as set out in Schedule 1 below, and NGT must transfer funds as set out in Schedule 2 below. NESO and NGT must transfer funds to the nominated bank account as notified by Funding Parties as per the requirements in the SIF Project Directions. The Funding Party must adhere to requirements regarding Project banking arrangements as specified in chapter 8 of the SIF Governance Document⁵. If Funding Parties anticipate any problems fulfilling these requirements, they should notify Ofgem as soon as possible.

Background

In line with chapter 7 of SIF Governance Document and pursuant to the following licence conditions detailed in Table 1 below, Ofgem calculates and, by direction, specifies the net amount of SIF Funding that is to be paid to Funding Parties by NESO and NGT. Ofgem also specifies the manner in which and the times at which NESO and NGT is required to transfer that SIF Funding. Table 1 below also sets out the network licensees who were eligible to participate in Cycle 3 of the SIF.

Below we specify the amount of SIF Funding to be distributed to network licensees who are leading Projects that we have decided to fund.

The values in this document align with the SIF Funding Decision published on 22nd September 2025 for Cycle 3 Discovery, Alpha and Beta Projects. These figures awarded are based upon the forecasts submitted by individual Projects. However, we recognise the actual expenditure on Projects may differ from these figures. Accordingly, there will be a 'true-up' of the figures quoted in this SIF Funding Direction against actual expenditure via an annual reconciliation process.

To minimise cashflow risk, NESO and NGT have both forecast the value of the SIF Funding requirement in advance of this direction.⁶ As the Project Phases and the SIF rounds progress, the NESO and NGT must reconcile their forecast values of the SIF Funding requirement against the actual values specified in this direction to ensure the amount of funding recovered from consumers is accurate.

Cycle 3 - SIF Funding awarded

Discovery

As per our SIF Funding Decision published on 22nd September 2025, we awarded SIF Funding to 7 Projects for the Cycle 3 Discovery phase, 4 of which were addressing Round 5 challenges and 3 were addressing Round 4 challenges. The Projects we decided to fund are listed in Table 2 below.

Alpha

As per our SIF Funding Decision published on 22nd September 2025, we awarded SIF Funding to 5 Projects for the Cycle 3 Alpha phase, all of which were addressing Round 4 challenges. The Projects we decided to fund are listed in Table 3 below.

Beta

As per our SIF Funding Decision published 22nd September 2025, we awarded SIF Funding to 1 Project for the Cycle 3 Beta phase, which was addressing a Round 3 challenge. The Project we decided to fund is listed in Table 4 below.

⁶ The NESO and NGT are able to input forecast values for the SIFF term when setting network charges for the year ahead. In future years, the NESO and NGT then reconcile these forecast values against actual values we specify within these SIF Funding Directions.

Table 2 – SIF Funding requested by the successful Cycle 3 Discovery Phase Projects

Sif round	Project phase	Sector	Project name	Funding Party	Total SIF Funding to be distributed
5	Discovery	Gas	AI opportunities for consumer centric engagement	NGT	£149,837.00

The SIF Funding Return

The SIF Funding Return Mechanism is used to return any SIF Funding Return from Funding Parties to NESO and NGT, and back to consumers. As detailed in chapter 7 of the SIF Governance Document, this will include unspent SIF Funding, SIF Disallowed Expenditure, SIF Halted Project Revenues, SIF Returned Project Revenues and SIF Returned Royalty Income.

SIF Funding Returns will now be dealt with on an annual basis, covering the regulatory year to 31 March. This means that this Funding Direction will include only payments to be made to Licensees that relate specifically to the award of SIF Funds for Cycle 3.

Implementation

As the learning from the SIF Projects provides benefits to all Funding Parties and GB consumers as a whole, SIF Funding is raised across all GB consumers through NTS Transportation Owner Charges (in gas) and Transmission Network Use of System Charges (in electricity).

SIF Funding is distributed by NESO and NGT to individual Funding Parties. This means that NESO and NGT make a net payment to each Funding Party per instalment as directed in Schedule 1 and 2, respectively, which is the sum of SIF Funding awarded to the Funding Party across multiple Projects. The Funding Parties are responsible for administering the SIF Funding they receive for Projects as per requirements in chapter 8 of the SIF Governance Document.

In accordance with Special Conditions 3.1 and 3.4 of NESO's Electricity Transmission Licence, Special Conditions 5.1 and 5.7 of NGT's Gas Transporter Licence, and the SIF Governance Document, the Authority hereby requires NESO to comply with the conditions in Schedule 1, and NGT to comply with the conditions in Schedule 2 to this SIF Funding Direction. Schedules 1 and 2 set out the amounts that are to be transferred by NESO and NGT to Funding Parties, together with the manner and timescale over which these amounts will be transferred – see Tables 5 and 7 in the Schedules appended to this letter.

This SIF Funding Direction constitutes notice pursuant to section 38A (Reasons for decisions) of the Gas Act 1986 and section 49A (Reasons for decisions) of the Electricity Act 1989.
