Statutory Consultation to modify the Special Conditions of the Gas Transporter Licence

Thank you for the opportunity to respond to this consultation. We have considered the proposed changes, especially those that impact Cadent (Exit Capacity Baseline Substitution) and can confirm that we are comfortable with the amendments. We are happy for this response to be published. Please see below for further comments.

General Feedback

1. Do you have any comments about the overall process of this consultation? Sufficient time was provided to enable a considered response.
2. Do you have any comments about its tone and content? We consider the amount of content sufficient to understand the subject matter.
3. Was it easy to read and understand? Or could it have been better written? Yes, the consultation is well written and simple to understand.
4. Were its conclusions balanced? Yes.
5. Did it make reasoned recommendations for improvement? The rationale for the proposed changes has been summarised well.
6. Any further comments? Nothing further to add.

Yours faithfully
