Date: **13 February 2026**

Dear Sir/Madam,

Northern Ireland Fuel Mix Disclosure 2026 – Renewable Energy Guarantees of Origin (REGOs)

We are contacting you to notify you of the Northern Ireland (NI) Fuel Mix Disclosure (FMD) deadline for 2026 and to set out the actions that may be required of you as part of this process with regard to REGOs.

What is Fuel Mix Disclosure (FMD)?

Fuel Mix Disclosure is required by Article 3(6) of Directive 2003/54/ED, replaced by Article 3(9) of Directive 2009/72/EC. The transposing legislation in Ireland requires the Commission for Energy Regulation ("the CER") to ensure suppliers provide reliable fuel mix information used to generate electricity supplied annually, on all bills and promotional materials issued to customers. In Northern Ireland the transposing legislation requires that licences issued by the Utility Regulator ("UR") include a condition requiring compliance with Article 3(6).

What is the disclosure period for 2026?

This disclosure period is **1 January 2025 to 31 December 2025**.

What do we expect suppliers to do?

Article 3(6) of Directive 2003/54/ED states that the following evidence sources held by electricity suppliers on **31 March 2026** can be used to prove renewable electricity purchased for supply to customers in NI:

- **REGOs:** these must be **retired** relating to generation in the disclosure period in a supplier's Renewable Electricity Register account by 31 March 2026. **You can only use retired REGOs in the NI FMD disclosure period.** Once retired, the REGOs will not be present within your Renewable Electricity Register (RER) account, however you will still be able to view them in the 'Reports' section of your account.

Actions for Suppliers for NI Fuel Mix Disclosure

Please complete the following by **2 March 2026**:

- Confirm to us via email to REGOFuelMixDisclosure@ofgem.gov.uk that that you are intending to participate in the NI Fuel Mix Disclosure period.
- Confirm to us via email to REGOFuelMixDisclosure@ofgem.gov.uk all REGOs you require for the NI Fuel Mix Disclosure.

Please complete the following by **midday 31 March 2026**:

- Ensure that all the REGOs you require for the NI FMD period are **retired** within your RER account **well in advance of the midday 31 March 2026 deadline**.

If you want to use REGOs for the purposes of the Great Britain (GB) Fuel Mix Disclosure

If you have any REGOs for the purposes of the Great Britain (GB) Fuel Mix Disclosure complete the following:

- Create a supplier account, which is separate to your current one and transfer those REGOs into this account for the Fuel Mix Disclosure period held for GB.

It is the responsibility of suppliers to engage with any relevant generators to ensure that REGOs are transferred to them in time for the 31 March deadline. **Ofgem does not do this on behalf of suppliers.**

If you experience problems when requesting or transferring your REGOs please contact the **Fuel Mix Disclosure** team, in the first instance at REGOFuelMixDisclosure@ofgem.gov.uk.

Yours faithfully,

James Crawford

Head of Compliance
