

Renewables Obligation Certificate (ROC) Issue Schedule 2026/2027

Note: If an operator has problems submitting this data to Ofgem, within the timeframes below, we should be notified **before** the relevant date in Column A. If data for Renewables Obligation Certificates (ROCs) is submitted to Ofgem after the date shown in Column A it will be suspended and Ofgem will look to generators to provide reasons as to why the data was submitted late. In these cases, it is unlikely that ROCs will be issued by the date shown in column B.

* Operators of micro-generating stations i.e. with a **declared net capacity of 50 kW or less** (or their agents) that have notified Ofgem that they want ROCs to be issued on an annual basis, must provide data for output and input electricity for the period, 01 April 2026 - 31 March 2027 by 31 May 2027 at the latest. Our generator and agent guidance documents, available on our website, provide further information on this. For individual micro-generating stations in NI we provide detailed instructions on how to submit data in our guidance, which will help you with this process.

In most cases, the data should be submitted via the Renewable Electricity Register. In the event of a problem with the Register, information should be emailed to our dedicated email account: renewable.outputdata@ofgem.gov.uk. If you need to speak to a member of the Renewables team directly, please call our dedicated helpline on **020 7901 7310**.
