

Dear Transmission Acceleration Team

I am writing to ask if you would accept a late submission to the above consultation, as I realised this morning I had not sent on Friday the short response I had prepared on behalf of Buchan Offshore Wind, a 1GW floating wind project off the Aberdeenshire coast, whose connection date is dependent on the timely delivery of a number of the ASTI projects.

The project's very short response is as follows:

Q1: Do you agree with our minded-to position to provide ECF for the eight projects?

Yes, for the reasons set in the consultation document.

Q2: Do you agree with our proposed modification to adjust ASTIAt in Appendix 1 of SpC 3.41?

Yes, for the reasons set in the consultation document.

I hope you are still able to include this in the consultation report despite me missing the deadline due to a hectic day on Friday.

Many thanks for any flexibility you can offer us.

Regards

Niall
