Purpose of this consultation

- 1.1 We published our decision on a review of the RIIO-ED2 Load Related Expenditure (LRE) volume drivers on 11 June 2026.¹ In that decision, we confirmed our intent to modify Special Condition (SpC) 3.9 of the electricity distribution licence.

The effect of the proposed modifications will be to increase the Low Voltage Services Volume Driver (LVSVD) unit rates, LVSVD ex ante allowances and, for one licensee only, the Secondary Reinforcement Volume Driver (SRVD) cap. The reasons for the proposed modifications are set out in our decision document published on 11 June 2026.
- 1.3 We have published a notice of a statutory consultation on a proposal to modify the special conditions of the electricity distribution licences for the Distribution Network Operators (DNOs), including the proposed modifications, alongside this document.
