1. Introduction

- 1.1 This document sets out clarificatory changes to align the Regulatory Information and Guidance document and licence with recent changes. Proposed changes are marked in red.

2. Distribution Network Operator Licence Changes

MINIMUM INFORMATION CHANGES

Condition 15 – Standards for the provision of Non-Contestable Connection Services

Part A: The relevant services and their standards

15.4 A request received by the licensee under paragraph 15.1, in relation to a service referred to in paragraph 15.2, becomes effective for the purposes of this condition when the applicant has supplied:

- (a) information on contact details, the work-site location, the service required and, where relevant, the total load required **and any relevant information as specified in the RIGs, including a company number, where relevant.**
- (b) payment of any charges that apply in relation to the provision of that service
