Date: 5 August 2026

Dear UK Power Networks (Operations) Limited,

**Strategic Innovation Fund – Approval of the Material Change request for UKPN/
Heatropolis**

The Strategic Innovation Fund (SIF) supports network innovation that contributes to the achievement of Net Zero, while delivering net benefits to energy consumers. It facilitates collaboration with other public funders of innovation so that activities appropriately funded by network consumers are coordinated with activities funded by Government, and funding gaps are avoided. The SIF Governance Document sets out the governance and administration of the SIF.¹

On 6th September 2024, UKPN was awarded SIF Funding for Heatropolis (the Project).² Further to this decision, Ofgem³ issued a SIF Project Direction.⁴

On 20th July 2026 UKPN submitted a Material Change request for the Project to the Authority.

A change in scope or length in deliverables

- Proceeding without the development of the Customer Data Exchange Tool (CDET).

¹<https://www.ofgem.gov.uk/sites/default/files/2026-06/ED2%20SIF%20Governance.pdf>

² <https://www.ofgem.gov.uk/decision/strategic-innovation-fund-round-2-beta-projects-approved-funding>

³ The terms the "Authority", "Ofgem", "we" and "us" are used interchangeably in this document. The Authority refers to the Gas and Electricity Markets Authority. Ofgem is the Office of the Gas and Electricity Markets Authority.

⁴ <https://www.ofgem.gov.uk/decision/strategic-innovation-fund-round-2-beta-projects-approved-funding>

And;

Change to original Project learnings

- Phasing the demonstration at the King's Cross site differently, with full electrified integration delayed and learning partially redistributed across sites and trial phases.

Ofgem's review

As set out in chapter 1 of the SIF Governance Document, Ofgem is the decision-maker in the SIF. Furthermore, as set out in chapter 8, Ofgem will consider Material Changes in circumstances and requests to change SIF Project Directions on a case by case, and will engage with monitoring officers on Projects to support the assessment of Material Change requests.

Ofgem has reviewed this Material Change requested submitted by UKPN and has engaged with the Monitoring Officer on the Project. Ofgem has reviewed the reasoning for the Material Change submitted by UKPN and considers it to satisfy the Eligibility Criteria in chapter 3 of the SIF Governance because:

- The descope of the data exchange tool reflects the Project's original plan to explore the viability and utility of such a tool as part of the Project and is a result of that exploration.
- The request to alter the phasing of delivery for the Kings Cross site changes the pathway to delivery rather than intended outputs and will not impact the learnings of Project.
- That the requested change to the Project Direction should be approved as the requested change does not violate any of the Eligibility Criteria outlined in Chapter 3 of the SIF Governance Document.
- That the requested change to the Project Direction should be approved as the requested change also does not violate the eligibility outlined in the Innovation Challenge Documentation.

As such, UKRI recommended approval of the Material Change request to Ofgem.

Decision

As a result of the reasons outlined above, Ofgem approves of this Material Change request.

In accordance with Section 17 of the Project Direction issued on 6th September 2024 and paragraph 8.28 of the SIF Governance Document, the amended SIF Project Direction for UKPN/Heatropolis is published in the Schedule 1 of this letter. The amended SIF Project Direction is effective as of the date of this letter and, unless stated otherwise, supersedes the SIF Project Direction issued on 6th September 2024. The letter constitutes notice pursuant to section 49A (Reasons for decisions) of the Electricity Act 1989 and 38A (Reasons for decisions) of the Gas Act 1986.

If you would like to discuss any of the issues, you can contact Ofgem via networks.innovation@ofgem.gov.uk. Alternatively, you can contact UKRI via SIF_Ofgem@innovateuk.ukri.org.

Yours sincerely,

Marzia Zafar

SRO for the Strategic Innovation Fund

Deputy Director of Digitalisation, Innovation and Decentralisation

For and on behalf of the Authority

Schedule: Amended SIF Project Direction

1. PROJECT DETAILS

SIF Project Direction reference: UKPN/HEATROPOLIS/SIFADMED/RD2_Beta

Application number: 10127932

Project title: HEATROPOLIS

Innovation Challenge/Project Phase: Supporting a Just Energy Transition / Beta Phase round 2

Project start date: 02 September 2024

Project end date: 30 September 2028

SIF Approved Amount for SIF Funding: £9,743,620

2. PREAMBLE

This SIF Project Direction is issued by the Gas and Electricity Markets Authority (the "Authority") to UK POWER NETWORKS: LONDON POWER NETWORKS PLC (the "Funding Party") pursuant to the SIF Governance Document issued pursuant to Special Condition 9.9 of the Electricity Distribution Licence (the "Licence"). It sets out the conditions to be complied with in relation to HEATROPOLIS (the "Project") as a condition of it being funded under the SIF Funding Mechanism.⁵

Unless otherwise specified, defined terms in this SIF Project Direction have the meaning given to them in the Licence or Appendix 1 of the SIF Governance Document.

References to specific sections of the Funding Party's Application in this SIF Project Direction are, for ease of reference, made by referring to the section number in the Funding Party's Application.

3. PROJECT SPECIFIC CONDITIONS

In accepting funding for the Project, the Funding Party is subject to the following Project-specific condition(s):

Condition 1

The Funding Party must not spend any SIF Funding until contracts are signed with the Project Partners named in Table 1 for the purpose of completing the Project.

⁵ The SIF Funding Return Mechanism is defined in the SIF Governance Document.

Table 1. Project Partners

METROPOLITAN INFRASTRUCTURE LIMITED
PASSIV UK LIMITED
GUIDEHOUSE EUROPE LIMITED

Condition 2 – financial contribution

The Funding Party must report on the financial contributions made to the Project as set out in its Application. Any financial contributions made over and above that stated in its Application should also be reported and included within the Project costs template.

Condition 3 – Meeting arrangements

The Funding Party must participate in all meetings related to the Project that they are invited to by Ofgem, UKRI and DESNZ during the Beta Phase.

Condition 4 – Stage gate scoping

The Funding Party must, with support from Innovate UK/UKRI and, where applicable Ofgem, scope the requirements and success criteria for each stage gate, as set out in the project management plan within a Project at the quarterly reporting meetings ahead of any stage gate. These will be used to determine what criteria a Project must meet in order to pass a stage gate, and whether any additional information, such as a report, must be produced as part of the stage gate.

Condition 5 – Impact monitoring

As part of the end of Project Phase report, the Funding Party must produce a Project Impact Monitoring and Evaluation Plan. This plan must outline how the Project plans to monitor and evaluate the delivery of benefits outlined in the Beta Phase Application following the end of the Beta Phase. The plan must also include the methodology that will be utilised for quantifying and qualifying benefits realisation and how the Funding Party plans to report this to Ofgem 1, 3, 5 & 10 years post-Beta Phase completion. Further details on how to approach the development of this plan may be provided by Ofgem or IUK.

Condition 6 – SIF Community Forums

The Funding Party and all Project Partners must make reasonable attempts to attend, participate and/or contribute at SIF Community Forum events occurring during the Project delivery. We anticipate there being approximately one event per year.

Condition 7 – Policy, regulatory and standards barriers

The Funding Party must provide verbal updates at each quarterly meeting on any regulatory, policy and standards barriers and any change requirements which may impact delivery of the Beta Phase activities. The Funding Party must also include as an attachment to each of its annual progress report an update on any regulatory, policy and standards barriers which may require derogations and articulation of any proposed regulatory, policy and standards changes which would be necessary in deployment. The Funding Party must also provide as an attachment to its end of Project Phase report a summary of the Project's findings on regulatory, policy and standards barriers, including any considerations for future work, and where applicable, where specific regulatory, policy and standards changes would be required for deployment.

Condition 8 – Updated 60-second videos

The Funding Party must provide within the first three months of signing contracts with its Project Partners an updated 60-second video. If the Project is greater than two years (longer than 24 months) in length, an updated video must also be provided at the Project's mid-point meeting. All Projects must also provide an updated 60-second video as part of their end of Project phase report. Innovate UK can share its guidance for 60-second videos with the Funding Party, if necessary.

Condition 9 – Post-Beta Phase roadmap

The Funding Party must provide to the monitoring officer within six months of it signing contracts its Project Partners a roadmap for activities post-Beta Phase. This can build on the Project's Application question (question 11) and must focus on how and when the proposed solution will become business as usual within your network and across the other GB gas or electricity networks.

As part of this, the Funding Party must include consideration for:

- I. any steps the Project will take to ensure its innovation has suitable business as usual adoption;

- II. the Funding Party's strategy for adoption of the innovation or proposed solution, giving consideration to potential investment, ongoing costs and third-party involvement and;
- III. any early indication of interest from other networks in adopting the innovation.

The Funding Party must provide an update on all the above at every two quarterly monitoring meetings (i.e. every six months) and must include a final update of this roadmap as attachment to its end of Project Phase report.

Condition 10 – Commercialisation strategy

The Funding Party must provide at every second quarterly monitoring meeting (i.e. every six months) an update on its commercialisation strategy. This can build on the Project's Application question (question 12) and must focus on what considerations have the Project consortium made for the commercialisation of the proposed solution or innovation, and how the Project provides support for non-network partners to move towards commercialisation. As part of this, the Funding Party may wish to include consideration for:

- I. who the primary customer segment is beyond the Funding Party; the customer value proposition;
- II. if identified, the outline of the route to market and potential new partnerships;
- III. any additional Project Partner capital requirements in order to commercialize the innovation and;
- IV. how this product, process or service could be scaled across the GB network and taken to new markets.

The Funding Party must also include a final update of its strategy as an attachment to its end of Project Phase report. Ofgem and/or Innovate UK may issue a template for the final update as part of the end of Project Phase report.

Condition 11 - Data Best Practice and Digital Strategy and Action Plan Guidance alignment

The Funding Party must provide at its second monitoring meeting (i.e. quarter one) a summary of how it intends to comply with Ofgem's Data Best Practice Guidance, and Digitalisation Strategy and Action Plan Guidance. Additionally, a part of its year 1 annual progress report, the Funding Party must provide a written update to the monitoring officer on its incorporation and application of data best practices to date in the Project, including its presumed open data policies, and data triaging methodology.

Condition 12

As part of stage gate 1 (as set out in the Project Plan), the Project must provide a stakeholder engagement plan detailing how it will engage with and enable other Heat Network Operators and smart control providers to participate, as well as how it will engage with and disseminate information to key government bodies, regulators and consumer protection groups (e.g. Heat Trust), and social housing providers or local authorities with significant social housing throughout the Project.

4. COMPLIANCE

The Funding Party must comply with Special Condition 9.9 of the Electricity Distribution Licence (the "Licence") and with this SIF Project Direction.

5. SIF APPROVED AMOUNT

The SIF Approved amount of £9,743,620 (as detailed under Section 1: Project details of this Project Direction) will be recovered by National Grid Electricity System Operator from GB customers and transferred to the Funding Party. The Funding Party is responsible for notifying National Grid Electricity System Operator of the bank account details to which transfers must be made, in addition to completing Annex 2 of this SIF Project Direction. If a Funding Party is required to return funding to National Grid Electricity System Operator, the reverse applies. The Funding Party must provide bank account details to National Grid Electricity System Operator within two weeks of accepting this SIF Project Direction.

6. PROJECT BUDGET

The Project Budget is set out in Annex 1 of this SIF Project Direction.

The Funding Party must report on expenditure against each line under the category total in the Project Budget and explain any Projected variance against each line as part of its detailed report which will be provided, in accordance with Chapter 7 of the SIF Governance Document. The Funding Party must report variations in the Project budget as outlined in Chapter 6 of the SIF Governance Document.

7. PROJECT IMPLEMENTATION

The Funding Party must undertake the Project in accordance with the commitments it has made in the Application and with the conditions of this SIF Project Direction. These include (but are not limited to) the following:

- (i) undertake the Project in accordance with its Application,
- (ii) complete the Project on or before the Project completion date as detailed under section 1 of the schedule of this SIF Project Direction, and
- (iii) disseminate the learning from the Project at least to the level described in chapter 3 of the SIF Governance Document. Dissemination of learning must be carried out whether the Project was concluded successfully or otherwise.

8. REPORTING

Ofgem and UKRI may issue guidance (and amend it from time to time) about the structure and content of the Project reporting required by Chapter 6 of the SIF Governance Document. The Funding Party must follow this guidance in preparing the reports.

The Funding Party must submit an end of Project Phase report to UKRI monitoring officers for the Beta Phase. Within this report, the Funding Party must submit information related to questions on Project delivery as detailed in chapter 6, table 6 of the SIF Governance Document.

9. MONITORING

The Funding Party must comply with any reasonable request for information by its monitoring officer at UKRI and related deadlines. Ofgem, with the support of UKRI, will together monitor Project delivery, impacts and benefits. Throughout the term of the Project, progress is monitored by UKRI through a monitoring officer. The monitoring officer is the first point of contact for official notifications, queries and correspondence with UKRI and the Authority, unless otherwise required by this SIF Project Direction.

As detailed in Chapter 6 of the SIF Governance Document, meetings with the monitoring officer will take place at regular intervals, as advised by Ofgem or the monitoring officer during the delivery of the Project, and at the end of each Project Phase.

10. EVALUATION

The Funding Party has acknowledged when it submitted its Application for this Project, that reporting information and data gathered during the Project's timescales (as detailed in Section 1 of this SIF Project Direction) will be used to evaluate Project performance. In addition, the Funding Party may be required to provide requested information outside of the Project timescales and, in particular, for the period from the Project end date to the end of the SIF Programme. Further data and reporting information may be requested

(frequency and method based on requirement) outside of standard monitoring and reporting requirements as deemed necessary. Further data and information requirements must be complied with by the Funding Party and Project Partners.

11. DATA SHARING

As set out in Chapter 3 of the SIF Governance Document, the Funding Party must follow Data Best Practice Guidance with regards to all data gathered or created in the course of a Project. We expect the Funding Party to document any reasons, such as commercial sensitivities, for desensitising data. As defined by, and in accordance with, Data Best Practice Guidance, Funding Parties must have a data triage process. Where multiple Project Partners are collaborating on a Project, the consortium must adopt a consistent Open Triage Process for the data related to the Project. Ofgem may require that Project information and data is also shared with other specified parties, such as parties working on complementary innovation funding programmes (subject to redaction of sensitive data).

12. CYBER SECURITY

It is the responsibility of the Funding Party and all Project Partners to implement and maintain appropriate security measures to protect personal data in accordance with The GDPR (General Data Protection Regulation)⁶ and DPA (Data Protection Act) 2018⁷. Protection of computer systems from unauthorised access or being otherwise damaged or made inaccessible must be in place alongside effective working practices. These must be maintained in line with the Funding Party's IT Management Strategies and policies.

13. PROJECT MILESTONES

The Funding Party must submit its end of Project Phase report to its monitoring officer that verifies the Project milestones have been achieved or explains why they have not.

Project milestones are outlined below in Table 3, based upon details contained within Question 7 and Appendix Question 9 in the Funding Party's.

⁶ https://ec.europa.eu/info/law/law-topic/data-protection/data-protection-eu_en

⁷ <https://www.legislation.gov.uk/ukpga/2018/12/contents/enacted>

Table 3. Project milestones⁸

Reference	Project milestone	Deadline	Overall objectives and key tasks	SIF Funding Request
Milestone 1	Project Management	31/12/2028	1.1.1 Mobilise partners and ensure contracts are signed 1.1.2 Plan (identify and agree on key milestones under each workstream, risks, dependencies, and review process, contracts set-up and onboarding) 1.2.1 & 1.5.1 Monitor progress and learning, and report interim progress to Innovate UK (initial meeting, quarterly presentations, 6-monthly SIF community forums, annual reports & mid Project catchup). Annual reports will include relevant updates on benefits mapping, business case, CBA & post-Beta Phase roadmap) Commercialisation strategy and regulatory delivery barriers will be updated every 6 months. 1.2.2 Prepare the Project mid-point summary video 1.5.2 Produce end of Phase reporting	£943,437

⁸ As outlined in in the Application or Project Plan appendix.

			1.5.3 Produce dissemination reporting and present at Show & Tell"	
Milestone 2	Commercial arrangements and business cases	30/08/2028	2.1.1 Building on Alpha insights and latest market structures, develop key commercial design principles & strategy 2.1.2 High-level commercial arrangements (HNO - DNO) to to assessed in Trial 1 e.g. connection agreements, principles of access, flexibility service requirements 2.1.3 Engage NESO to determine and assess value of HNO flex to NESO 2.1.4 Develop HNO power market model e.g. Plexos 2.1.5 Develop DNO, HNO and ESO business cases 2.2.1 High-level commercial arrangements (HNO - DNO) to to assessed for Trial 2 e.g. connection agreements, principles of access, flexibility service requirements 2.2.2 Update DNO, HNO and ESO business cases based on latest insights 2.3.1 High-level commercial arrangements (HNO - DNO) to to assessed in Trial 3 e.g. connection agreements, principles of access, flexibility service requirements	£527,968

			2.3.2 Update DNO, HNO and ESO business cases based on latest insights 2.4.1 Develop BaU commercial arrangements 2.4.2 Update DNO, HNO and ESO business cases based on latest insights	
Milestone 3	Trials strategy and design	01/09/2027	3.1.1 Initial site engagement activities 3.1.2 Trial 1 - High-level objectives, plan, strategy, and site selection (baselining and initial testing trial) 3.1.3 Trial 1 customer experience and process design 3.1.4 Trial 1 refined commercial trial design e.g. payments to consumers, baselining, settlement, connection agreement, principles of access, flexibility requirement for HNO archetypes A, B & C 3.1.5 Trial 1 technical system design for HNO archetypes 3.1.6 Trial 1 controls design for HNO archetypes A, B & C 3.1.7 Trial 1 DNO controls design for HNO archetypes A, B & C 3.1.8 Trial 1 delivery plan for HNO archetypes A, B & C (trial entry/exit criteria, activities, data requirements, data storage, success criteria) 3.1.9 Trial 1 data analysis plan 3.2.1 - 3.3.8 - Repeat tasks above for Trial 2 and 3 3.3.9 Data analysis plan	£1,519,865
Milestone 4	Trials build and evaluation	01/05/2028	4.1.1 Trial 1 HNO system provisioning and installation e.g. thermal storage, electric boilers and heat pumps 4.1.2 Trial 1 HNO controls provisioning and installation e.g. energy centre controls and building end point controls	£3,609,104

			4.1.3 Trial 1 DNO controls provisioning and installation e.g. RTUs, monitoring, DERMS, DMS 4.1.4 Trial 1 integration and end to end comms testing 4.2.1 Trial 1 monitoring 4.2.2 Trial 1 data analysis 4.5.1 - 4.6.2 Repeat tasks as above for Trials 2 and 3 4.6.3 Offboarding across trials (including hardware and software)	
Milestone 5	Digital customer tools	01/11/2026	5.1.1 Develop case for developing new digital customer tools 5.1.2 Impact assessment of the customer connections service tool (CCST) and customer data exchange tool (CDET) of the key impacts, benefits and high-level requirements, including solution architecture, functional /integration /data input / data protection / testing / non-functional / UX requirements 5.2.1 Procurement activities for CCST implementation. To include delivery partner procurement, delivery partner contracting, procurement governance 5.3.1 Delivery partner identified and engaged 5.3.2 Detailed design for CCST to capture additional impacts from conceptual design, inputted by all Project partners	£ 1,621,068 1,408,594

			5.3.3 CCST design, build, test and learn, including in-life iteration and fixes 5.3.4 Documented learnings from design and implementation of CCST 5.3.5 CCST training and handover 5.4.2 — 5.5.5 Repeat tasks as above for CDET tool	
Milestone 6	Customer engagement and recruitment	01/06/2028	6.1.1 Determine scope of primary research and select subcontractor 6.1.2 Insights from primary research with stakeholders (non-trial participants) 6.1.3 Development of customer engagement strategy and plan 6.2.1 Customer selection and recruitment for Trial 1 6.2.2 Design of surveys and focus groups for trial participants 6.2.3 Conducting surveys and focus groups with trial participants 6.2.4 Analysis of customer feedback 6.3.4 - 6.4.6 Repeat tasks as above for Trials 2 and 3	£681,117
Milestone 7	Stakeholder engagement & knowledge dissemination	01/07/2028	7.1.1 Develop external stakeholder engagement plan, knowledge dissemination plan and associated trackers 7.2.1 Setup knowledge dissemination platform 7.2.2 Project launch event	£400,803

			7.2.3 Annual policy and relevant Project horizon scans 7.2.4 Engagement and recruitment of Trial 3 HNO 7.2.5 Engagement with Ofgem & DESNZ on trial insights & RESPS and Local Authorities 7.2.6 Engagement with heat network stakeholders e.g. ADE, HNIC, DEA on trial insights 7.2.7 Engagement with wider DNOs 7.2.8 Shared learning through blogs, conferences (ENIC, SIF community forums etc), & social media 7.2.9 Trial 1 insights dissemination activities 7.3.1 Trial 2 insights dissemination activities 7.4.1 Trial 3 insights dissemination activities	
Milestone 8	BaU transition including regulatory assessment	30/08/2028	8.1.1 Policy and Regulatory assessment of solution considering Ofgem's Heat Network Regulation 8.1.2 Develop DNO and HNO change impact assessment 8.1.3 Process (e.g. data, products, investments) and customer experience updates 8.1.4 Updates control designs (commercial and technical) 8.1.5 Training and handover 8.2.1 Annual BaU transition roadmap updates 8.2.2 Update regulatory recommendations for HNOs and DNOs	£440,258

			8.2.3 Develop decommissioning strategy and plan (As required) 8.2.4 BaU handover of tools and processes 8.2.6 Training and handover	
--	--	--	---	--

14. USE OF LOGO

The Funding Party and the Project Partners, External Funders and Project Supporters or subcontractors⁹ must not use the Innovate UK/UKRI and/or Ofgem logo for purposes associated with the Project in any circumstances.

As an alternative for use of both Ofgem and UKRI logos, all external Project communications must include the following standard form of wording:

- (i) "this Project is funded by network users and consumers under the Strategic Innovation Fund, an Ofgem programme managed in partnership with UKRI."

For additional guidance, refer to the communications and media guidelines for competition winners, detailed as part of your delivery pack. These guidelines are designed to help with some suggestions and encourage you to take a proactive approach to communicating about your Project.

15. SHARING OF LESSONS LEARNED

The Funding Party is required to ensure that the sharing of lessons learned and the facilitation of knowledge transfer is conducted as effectively as possible, to ensure that all parties, and therefore all consumers including future consumers, can benefit from Projects.

As contained within Chapter 3 of the SIF Governance Document, we require the Funding Party to work collaboratively to maintain the ENA Smarter Networks Portal so that all reporting and dissemination of learnings on Projects (as required by chapter 6 of the SIF Governance Document) is available via the ENA Smarter Networks Portal.

16. COLLABORATION

The Funding Party must collaborate with third-party innovators as Project Partners, as well as work closely with other parties in the energy supply chain, as set out in Chapter 3 of the SIF Governance Document.

The Funding Party must collaborate with other parties and with UKRI to organise an annual conference in a format appropriate to enabling the building of consortiums and disseminating learning widely. The conference may be a single event for gas and electricity, or more than one event, as appropriate.

⁹ As detailed in the Application.

17. AMENDMENT OR REVOCATION

As set out in Chapter 7 of the SIF Governance Document, this SIF Project Direction may be amended or revoked under the following circumstances:

- (i) if the Funding Party considers that there has been a material change in circumstance that requires a change to the SIF Project Direction, and the Authority agrees; or
- (ii) to reflect amendments made to the Licence.

18. HALTING OF PROJECTS

This SIF Project Direction is subject to the provisions contained in Chapter 7 of the SIF Governance Document relating to the halting of Projects. By extension, this SIF Project Direction is subject to any decision by the Authority to halt the Project to which this SIF Project Direction relates and to any subsequent relevant SIF Funding Direction issued by the Authority pursuant to Special Condition 9.9 of the Electricity Distribution Licence (the "Licence").

Further to the requirements in Chapter 7 of the SIF Governance Document, in the event the Authority decides to halt the Project, to which this SIF Project Direction relates, the Authority may issue a statement to the Funding Party clarifying the effect of that halting decision as regards to the status and legal force of the conditions contained in this SIF Project Direction.

NOW THEREFORE:

In accordance with the SIF Governance Document issued pursuant to Special Condition 9.9 of the Electricity Distribution Licence (the "Licence") of the Licence the Authority hereby issues this SIF Project Direction to the Funding Party in relation to the Project.

This constitutes notice of reasons for the Authority's decision pursuant to section 49A (Reasons for decisions) of the Electricity Act 1989.

Failure to comply with the conditions of this SIF Project Direction means that Ofgem may treat all or part of the SIF Approved Amount received by the Funding Party as SIF Disallowed Expenditure.

ANNEX 1: PROJECT BUDGET

Cost Category	Total Project costs (£)
Labour	£ 6,655,651
Materials	£ 3,248,073
Subcontracting	£ 1,720,090
Travel and subsistence	£ 24,800
Other costs	£ 150,000
