Notice of decision to modify the Biomethane Connections Use It Or Lose It (UIOLI) governance document under Special Condition 3.21 of the Gas Transporter licence held by licensees listed above

The Gas and Electricity Markets Authority ('the Authority') has decided to modify the Biomethane Connections UIOLI governance document issued under Special Condition 3.21 of the Gas Transporter licence held by each of the above licensees ('the licensees') granted or treated as granted under section 7 of the Gas Act 1986.

We have decided to amend the Biomethane Connections UIOLI Governance Document to allow corporate groups that operate multiple networks to reallocate UIOLI allowances between those networks.

The reasons for and effects of these modifications can be found in a separate decision document, and the text of the modifications in Biomethane Connections UIOLI Governance Document (v2.0), both published on our website, alongside the responses received during the consultation period.

Donald Lam

Head of Gas Distribution Policy, Network Price Controls
