Dear David

**Modification to NGC's Transmission Licence: BSC modification proposal implementation dates  
Consultation under section 11A of the Electricity Act 1989**

British Gas Trading Ltd welcome the opportunity to comment on this proposed change to NGC's Transmission Licence.

We note that this proposed modification to the licence has arisen from the development of BSC Modification Proposal 28. We believe that enabling the shortening of implementation timetables will lead to a greater efficiency in effecting NGC's licence conditions in relation to the BSC Modifications Process. The provision requiring consultation for any change in implementation date, whether lengthening or shortening the time period, is a welcome check on any changes that would be detrimental to participants.

We hope these comments have been useful. Please do not hesitate to contact me should you wish to discuss this further.

Yours sincerely

Danielle Lane
