15 May 2002

Dear David

Modification to NGC's Transmission Licence: BSC modification proposal implementation dates Consultation under section 11A of the Electricity Act 1989

Thank you for the opportunity to respond to the above consultation. TXU Europe Energy Trading Ltd would like to make the following comments on behalf of all TXU companies.

TXU fully supports the proposed amendment to standard condition C3.4(c) of the Transmission Licence. We believe that it is vital to the efficient operation of the regime that implementation timescales can be shortened as well as extended.

Yours sincerely

Nicola Lea
