Mr Nick Simpson
Director of Industry Code Development
Ofgem
9 Millbank
London
SW1P 3GE

Dear Mr Simpson

Thank you for your letter dated 30 April 2004.

Having given careful consideration to whether or not we should make a statutory objection to the proposed modification of Standard Licence Condition 14 in the gas transporters licence, we have decided not to object.

This decision has been made on the understanding that the final proposals Ofgem make with regard to competition in metering only apply to IGTs in respect of compliance with MAMCoP

Yours sincerely

Neil Shaw
Managing Director
Gas Transportation Company
