0141 568 3209

Dear Mr Simpson

**Notice under Section 23(3) of the Gas Act 1986  
Condition 34A The Supply Point Administration Agreement**

With reference to the above, ScottishPower Energy Retail confirm that they are in support of the introduction of the above Licence Condition to be placed on Domestic Suppliers. We have participated fully within the discussions and development of the SPAA documentation and believe that it will deliver the mechanism for formalising and strengthening the communication link between Suppliers. Primarily the Agreement when formally designated will support the governance and change control mechanism for the RGMA Baseline. Looking forward, we envisage that the agreement will have a fundamental role to play in supporting future Industry initiatives that will evolve from the work of the Customer Transfer Programme and the potential sale of Distribution Networks.

Yours sincerely

Marie Clark  
Energy Commercial Manager  
ScottishPower
