

# Initial discussion of licensing framework

DISG 13, 6 July 2004

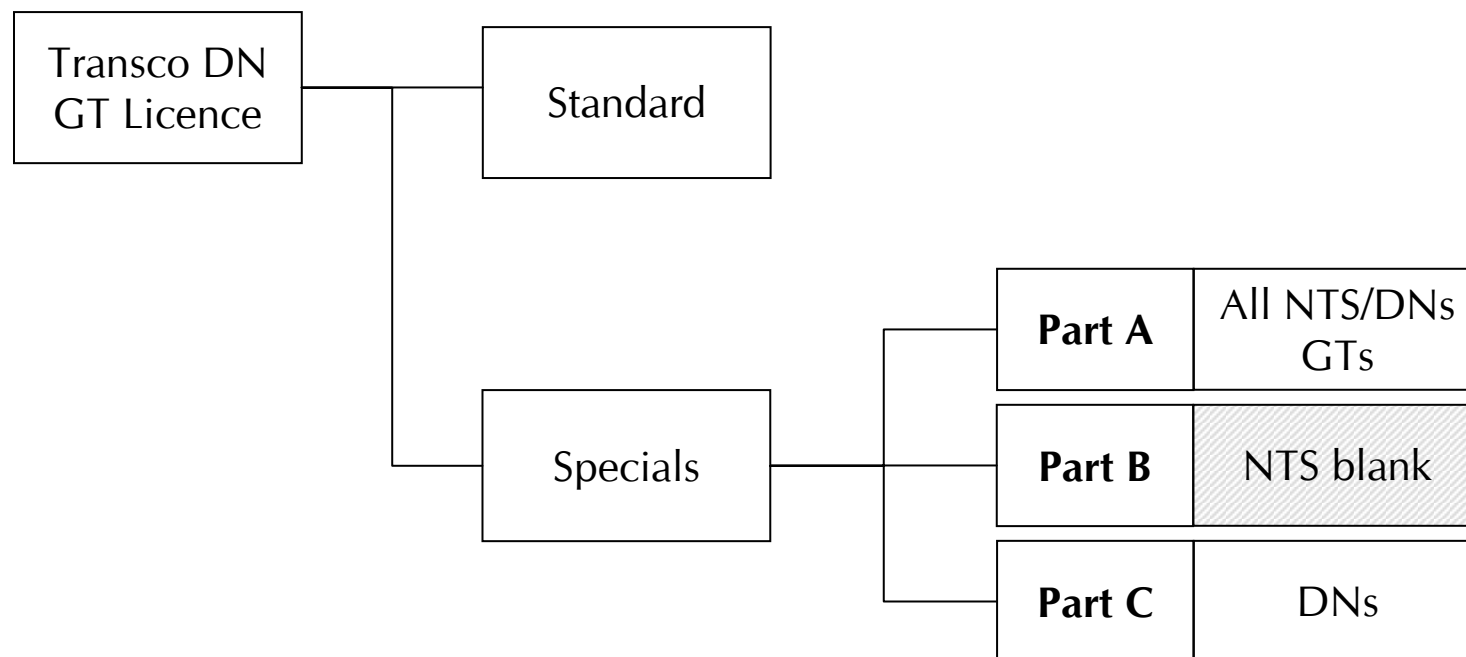

# Developing the licensing framework

- Initial overview of Transco's licence already completed by Ofgem and RAWG
- Four categories of conditions have been identified:
  - Standard GT conditions
  - NTS & DN conditions (not IGTs)
  - NTS only conditions
  - DN only conditions

# Initial thoughts on structure of NTS licence

# Initial thoughts on structure of DN licence

# Way forward

- Ofgem is currently undertaking more detailed thinking
- Plan to issue a consultation document
  - informal consultation
  - formal consultation which may bring changes into effect
- Key policy issues relating to licensing to be progressed through DISG
