3 August 2004

Dear colleague,

Delay to publication of gas connections document

The document 'Improving Transco's gas connection services – update and draft licence condition informal consultation' will not now be published in August as previously stated.

The new proposed publication date is September 2004 at the same time as the informal consultation on changes to the GT licence to cater for the potential sales of Transco's DNs.

Yours sincerely

Sean O'Hara
Head of Connections Policy
