Dear Colleague,

Correction: DN sales Open Letter on Special Condition 18

Ofgem has identified an error in the Open Letter on Special Condition 18, published on 6 August 2004.

Paragraph two of the Open Letter states:

“There are four independent LNG networks in Scotland (Wick, Campbeltown, Thurso and Oban)...”

In fact, there are five independent LNG networks in Scotland, including one located in Stranraer. Therefore paragraph two of the Open Letter should have stated:

“There are five independent LNG networks in Scotland (Wick, Campbeltown, Thurso, Oban and Stranraer)...”

The remainder of the Open Letter applies in full to all five independent LNG networks in Scotland.

Should you have any questions concerning either this correction or the original Open Letter, please do not hesitate to contact me on the above number. Jessica Hunt on extension 7431 will also be pleased to help.

Yours sincerely,

Sonia Brown
Director of Transportation
