Dear Bridget

**GB Consultation for NGC's Grid Code Change Proposal F/04  
(Development of Maximum Generation Service)**

EDF Energy are pleased to have the opportunity to respond to this GB consultation on the Grid Code changes associated with the Development of a Maximum Generation Service.

EDF Energy have responded to National Grid's consultations in support of the proposed arrangements for a Maximum Generation Service and the proposed changes to the Grid Code to support this.

We do not believe that these proposed changes give rise to any additional implications under a GB Grid Code and would therefore support the implementation of this change proposal in the GB Grid Code under BETTA.

We hope that you will find these comments helpful. If you have any queries please contact me on 0207 752 2526.

Yours sincerely

Rupert Judson  
Transmission Infrastructure
