THESE AMENDMENTS MAY INCLUDE RESTRICTIONS (EFFECTED THROUGH A REASONABLE ENDEAVOURS OBLIGATION) ON THE NUMBER OF CHANGES THAT CAN BE MADE PER YEAR AND DATE ON WHICH SUCH CHANGES CAN BE INTRODUCED. THIS CONDITION MAY ALSO REFERENCE THE CO-ORDINATION ROLE OF THE JOINT OFFICE AND WILL BE INTRODUCED WHEN POLICY HAS BEEN DEVELOPED. THESE CHANGES CAN BE INCORPORATED IN THE s8AA PROCESS. OFGEM IS SEEKING VIEWS ON THESE ISSUES.]

(c) the methods by which, and the principles on which, those charges or reserve prices are determined in accordance with the methodology referred to in paragraph 5;

licensee shall, before the change takes effect or, if that is not reasonably practicable, as soon as is reasonably practicable thereafter, furnish the Authority with a revision of the statement or, if the Authority so accepts, with amendments to the previous statement, which reflect the change.

2. The licensee shall -

(a) give the Authority notice of any proposals which it is considering to change the charges or **reserve prices** mentioned in paragraph 1, together with a reasonable estimate of the effect of the proposals (if implemented) on those charges or **auctions for which the reserve prices are to be applied**, and shall use all reasonable endeavours to do so at least 150 days before the proposed date of their implementation; and

(b) where the licensee has decided to implement any proposals to change the charges or **reserve prices** mentioned in paragraph 1, give the Authority notice of this decision and the date on which the proposals will be implemented which shall not, unless the Authority otherwise consents, be less than a month after that on which the notice required by this sub-paragraph was given.

3. The licensee shall -

(a) publish any statement, or revision or amendment of a statement, furnished, or notice given, under paragraph 1 or 2 in such manner as will, in its reasonable opinion, secure adequate publicity for it; and

(b) send a copy of any such statement, revision, amendment or notice so published to any person who asks for one.

4. Except in a case in which the Authority accepts otherwise, the licensee shall only enter into transportation arrangements which **either**

(a) secure that the charges in pursuance thereof will be in conformity with the statement last published under paragraph 3 either -

(i) before it enters into the arrangements; or

(ii) before the charges in question from time to time fall to be made,

(ii) no reserve price.

5. Subject to paragraph 6, the licensee shall -

(b) conform to the methodology so established as from time to time modified in accordance with Standard Special Condition A[ ] (Obligations as Regards Charging Methodology).

6. In any case in which the licensee is willing to enter into storage arrangements in respect of such facilities as are mentioned in paragraph 9 –

(a) if the charges in pursuance of those arrangements are not governed by the methodology established under paragraph 5, the licensee shall avoid any undue preference or undue discrimination in the terms on which it enters into such arrangements; and

(b) if either those charges or any charges made in pursuance of transportation arrangements other than storage arrangements are not governed as aforesaid, the licensee shall ensure so far as is reasonably practicable, that no unjustified cross-subsidy is involved between the terms on which it enters into the storage arrangements and those on which it enters into other transportation arrangements.

7. Any question which arises under paragraph 6 as to whether a cross-subsidy is unjustified, shall be determined by the Authority.
8. References in paragraphs 1 to 5 to charges do not include references to -

(a) charges related to the acquisition or disposal of gas for purposes connected with the balancing of the licensee’s pipe-line system; or

(b) to the extent (if any) to which the Authority has accepted that they should, as respects certain matters, be so determined, to charges determined by reference to provisions in that behalf set out in the Network Code,

and, subject as aforesaid, references in this condition and in Standard Special Condition A[ ] (Obligations as Regards Charging Methodology) and A[ ] (Connection Charges etc) to charges-

(i) include references to the means whereby charges may be ascertained; and

(ii) exclude references to supplemental charges within the meaning of standard condition 4C (Charging Gas Shippers – Supplemental Connection Charges).

9. In this condition “transportation arrangements” includes storage arrangements which relate to the utilisation of –

(a) an offshore gas storage installation;

(b) storage cavities in natural strata, or

(c) containers for the storage of gas in a liquid state.

10. If the Authority, having regard, in particular, to any representations made to it by the licensee and other persons as to the extent to which there is competition in relation to the storage of gas in particular categories of the facilities mentioned in paragraph 9(a), (b) or (c) and the Authority’s view on that question, considers it appropriate that paragraph 9 should be modified by the omission of sub-paragraph (a), (b) or (c), then the subparagraph in question shall be omitted with effect from a date specified in a notice relating thereto published by the Authority for the purposes of this condition generally; and, if all three subparagraphs come to be omitted, paragraphs 6 and 7, paragraph 9 and the reference thereto in the definition of “transportation arrangements” in condition 1 shall cease to have effect.

11. In this condition “transportation arrangements” shall have the meaning given in Standard Special Condition A[ ] (Definitions and Interpretation) save that references
therein to the term “pipe-line system” shall be amended so as to refer to “pipe-line system or any part thereof”.
Standard Special Condition A[ ]: Obligations as Regard Charging Methodology

[N.B. THIS CONDITION INCLUDED AS A SPECIAL CONDITION TO INCORPORATE THE AMENDMENTS TO THE “DESIGNATED” STANDARD CONDITION MADE TO DEAL WITH THE ISSUES RAISED BY AUCTIONS. THIS SPECIAL CONDITION WILL REQUIRE FURTHER AMENDMENT TO INCORPORATE FURTHER RESTRICTIONS ON THE FREEDOM OF LICENSEES TO AMEND THEIR CHARGING METHODOLOGIES.

THESE AMENDMENTS MAY INCLUDE RESTRICTIONS (EFFECTED THROUGH A REASONABLE ENDEAVOURS OBLIGATION) ON THE NUMBER OF CHANGES THAT CAN BE MADE PER YEAR AND DATE ON WHICH SUCH CHANGES CAN BE INTRODUCED. THIS CONDITION MAY ALSO REFERENCE THE CO-ORDINATION ROLE OF THE JOINT OFFICE AND WILL BE INTRODUCED WHEN POLICY HAS BEEN DEVELOPED.

IN ADDITION, OFGEM CONSIDERS IT APPROPRIATE TO INTRODUCE AN OBLIGATION ON NTS AND DN-GT LICENCE HOLDERS TO KEEP THE CHARGING METHODOLOGY UNDER REVIEW AT ALL TIMES IN ORDER TO ENSURE THAT THERE IS CO-ORDINATION, CONSISTENCY AND BEST PRACTICE IN THE ACHIEVEMENT OF THE RELEVANT OBJECTIVES.

OFGEM IS SEEKING TO RETAIN THE REFERENCES TO AUCTIONS IN ALL LICENCES, ALTHOUGH THEY WILL BE OF NO EFFECT IN THE LICENCE OF THOSE GTS WHICH DO NOT CONDUCT AUCTIONS.

THESE CHANGES CAN BE INCORPORATED IN THE s8AA PROCESS. OFGEM IS SEEKING VIEWS ON THESE ISSUES.]

1. Except in so far as the Authority consents to the licensee not doing so, the licensee shall, subject to paragraphs 2 and 3, from time to time make such modifications of the methodology established in pursuance of paragraph 5 of Standard Special Condition A[ ] (Charging of Gas Shippers – General) (“the charging methodology”) as may be requisite for the purpose of achieving the relevant methodology objectives.
2. Except in so far as the Authority otherwise approves, the licensee shall not make a modification of the charging methodology unless it has -

(a) consulted the relevant shippers on the proposed modification and allowed them a period of not less than 28 days within which to make written representations; and

(b) furnished the Authority with a report setting out -

(i) the terms originally proposed for the modification;

(ii) the representations (if any) made by relevant shippers; and

(iii) any change in the terms of the modification intended in consequence of such representations,

and unless 28 days have elapsed since the said report was furnished without the Authority having given the licensee a direction requiring that the modification be not made.

3. Subject to paragraph 4, the licensee shall in each calendar year furnish the Authority with a report on the application of the charging methodology during the 12 months preceding 1st October in that year including a statement as to -

(a) the extent to which, in the licensee’s opinion, the relevant methodology objectives have been achieved during the period to which it relates;

(b) whether those objectives could more closely be achieved by modification of the charging methodology; and

(c) if so, the modifications which should be made for that purpose.

4. As respects the calendar year in which this licence came into force:

(a) if it came into force on or after 1st October in that year, paragraph 3 shall not apply; or

(b) if it came into force before that date, paragraph 3 shall have effect as if for the reference to the 12 months preceding that date there were substituted a reference to the period preceding that date beginning with the date on which the licence came into force.

5. In paragraphs 1 and 3 “the relevant methodology objectives” means, subject to paragraph 6, the following objectives -
(a) **save in so far as paragraph (aa) applies**, that compliance with the charging methodology results in charges which reflect the costs incurred by the licensee in its transportation business;

**(aa) that, in so far as prices in respect of transportation arrangements are established by auction, either:**

(i) **no reserve price is applied, or**

(ii) **that reserve price is set at a level -**

   (I) *best calculated to promote efficiency and avoid undue preference in the supply of transportation services; and*

   (II) *best calculated to promote competition between gas suppliers and between gas shippers;*

(b) that, so far as is consistent with sub-paragraph (a), the charging methodology properly takes account of developments in the transportation business; and

(c) that, so far as is so consistent, compliance with the charging methodology facilitates effective competition between gas shippers and between gas suppliers.

6. **Where -**

(a) the charging methodology results in charges which, or the revenue derived from which, are, in the main, not controlled or limited in pursuance of any standard condition of this licence other than Standard Special Condition A[ ] (Charging of Gas Shippers – General); and

(b) the Authority has not accepted that, for a specified period, this paragraph should not apply or has so accepted subject to standard conditions which are not satisfied,

“the relevant methodology objectives” shall include the following objective, namely, that the charging methodology results in charges which, taking one charge with another and one year with another, permit the licensee to make a reasonable profit, and no more, from its transportation business so, however, that, for the purposes of this paragraph, there shall be disregarded -

(i) costs incurred for the purposes of that business in connection with the construction of pipe-lines for the benefit of an area for the time being
designated for the purposes of standard condition 4C (Charging of Gas Shippers – Supplemental Connection Charges);

(ii) revenue derived from that business by way of charges (within the meaning of standard condition 4B (Connection Charges etc)) to which any provisions of that standard condition have effect and which are in respect of premises within an area for the time being so designated;

(iii) revenue derived from that business by way of supplemental charges (within the meaning of standard condition 4C (Charging of Gas Shippers – Supplemental Connection Charges)); and

(iv) any payments made by the licensee in connection with the proposed development of an area for the time being not so designated to a person who has an interest in land in that area, other than by way of reasonable consideration for an interest in land or for goods or services with which the licensee is provided,

and, for the purposes of this paragraph, “costs” and “revenue” mean costs and revenue determined on an accrual basis.

7. The licensee shall comply with any direction given from time to time by the Authority requiring the licensee -

(a) subject to paragraphs 8 and 9 to publish such information as may be specified or described in the direction -

(i) as to any of the costs incurred by the licensee in its transportation business, or

(ii) relating to the charging methodology as modified from time to time in accordance with paragraph 1; and

(b) to do so in such form and manner and with such frequency as may be so specified.

8. The licensee shall not be required by paragraph 7 to publish any information or any document -

(a) which it could not be compelled to give in evidence or produce in civil proceedings before the court; or

(b) so far as it comprises information relating to costs incurred in connection with the construction of pipe-lines for the benefit of an area for the time being
designated for the purposes of standard condition 4C (Charging of Gas Shippers – Supplemental Connection Charges) or so incurred in preparation for the area becoming so designated.

9. In publishing any information in pursuance of paragraph 7 the licensee shall have regard to the need for excluding, so far as is practicable, any matter which relates to the affairs of any person where the publication of that matter would or might seriously and prejudicially affect his interests.

12. If the Authority, having regard, in particular, to any representations made to it by the licensee and other persons as to the extent to which there is competition in relation to the storage of gas in particular categories of the facilities mentioned in paragraph 11(a), (b) or (c) and its view on that question, considers it appropriate that paragraph 11 should be modified by the omission of sub-paragraph (a), (b) or (c), then the subparagraph in question shall be omitted with effect from a date specified in a notice relating thereto published by the Authority for the purposes of this condition generally; and, if all three sub-paragraphs come to be omitted, paragraph 11 and the reference thereto in the definition of “transportation business” in Standard Special Condition A[ ] (Definitions and Interpretation ) shall cease to have effect.

4. *If the Authority, having regard, in particular, to any representations made to it by the licensee and other persons as to the extent to which there is competition in relation to either metering or meter reading and its view on that question, considers it appropriate that references to either the provision of metering services or of meter reading services should be deleted for the purpose of paragraph 2 of this condition, those references shall cease to have effect from the date or dates specified in a notice published by the Authority for that purpose.*

1. The licensee shall -

   (a) establish, or procure the establishment of, and subsequently operate and maintain, or procure the subsequent operation and maintenance of, in coordination with all other gas transporters a single continuously manned telephone service for use by any person, with the facilities mentioned in paragraph 2, for the receipt of reports and the offering of information, guidance or advice about any matter or incident that -

      (i) causes danger or requires urgent attention, or is likely to cause danger or require urgent attention, in relation to the supply of gas conveyed through pipes; or

      (ii) involves the escape of gas from a network or from a gas fitting supplied with gas from a network (where the reference to an escape of gas from a gas fitting includes a reference to an escape or emission of carbon monoxide gas resulting from incomplete combustion of gas in such a fitting);

   (b) arrange with other gas transporters for the information contained in reports received by that service of escapes of gas in respect of which the licensee may have any obligations to be given without delay to the licensee; and

8. Subject to paragraph 9, the licensee shall make arrangements which will secure that in preventing an escape of gas in any premises to which it conveys gas (or, where it conveys gas to any primary sub-deduct premises, in any secondary sub-deduct premises to which the gas is subsequently conveyed) -
   (a) the prevention is effected, so far as it is reasonably practicable and safe to do so -

(a) when making such a request of a relevant supplier or shipper as is mentioned in paragraph 2 of standard condition 14 (Security and Emergency Arrangements) of the standard conditions of gas suppliers’ licences or
paragraph 2 of standard condition 5 (Obligations as Respects Emergencies etc) of the standard conditions of gas shippers’ licences;

(b) when telling a relevant customer that he should refrain from using gas, in pursuance of such a term of that customer’s contract for the supply of gas as is mentioned in paragraph 3(b) of standard condition 15 (Security and Emergency Arrangements) of the standard conditions of Gas Suppliers’ licences, or

(c) when interrupting, reducing or restricting the conveyance of gas,

14. Where the reasons of safety referred to in paragraph [13] relate to the whole or a substantial part of Great Britain or there is a significant shortage of gas affecting the whole or a substantial part of Great Britain, the licensee shall so far as is reasonably practicable in the circumstances having regard to the over-riding importance of safety -

(a) (i) consult the network emergency co-ordinator; or

(ii) where the licensee is the network emergency co-ordinator, inform and if appropriate consult the Secretary of State,

15. The licensee, if licensed under section 7(2)(a) of the Act, shall -

(a) unless it has done so before being so licensed, establish a list of relevant customers who should be given priority as respects the maintenance of a supply of gas and the maintenance of the conveyance of gas to their premises; and
as often as is appropriate, review the list, and so far as appears appropriate, amend it, after consultation with all relevant shippers which appear to the licensee to have an interest in the proposed amendment, and, without prejudice as aforesaid, shall conduct such a review and make any such amendments on being directed so to do by the Secretary of State.

18. Any question arising under this condition as to whether a particular relevant customer is required to be included in the list established, reviewed or amended under paragraph [15] shall be determined by the Secretary of State.

19. In this condition –
   (a) “network emergency co-ordinator” shall be construed in the same manner as that term is construed in the Gas Safety (Management) Regulations 1996; and
   (b) “relevant customer” includes –
      (i) any person who is supplied by a relevant supplier with gas conveyed to a particular supply point at a rate which is reasonably expected to exceed 732,000 kilowatt hours a year, to the extent that the terms on which that
person is supplied permit such supply to be interrupted or reduced only in pursuance of such a term as is mentioned in paragraph 3 of standard condition 15 (Security and Emergency Arrangements) of the standard conditions of gas suppliers’ licences or in pursuance of directions given under section 2(1)(b) of the Energy Act 1976; and

(ii) any person mentioned in any direction given by the Secretary of State in relation to paragraph [16](c) of this condition.

20. References in this condition to the maintenance of supply or conveyance of gas include references to the resumption of such supply or conveyance following its interruption or reduction.

Standard Special Condition A. Provision and Return of Meters

[N.B. THIS CONDITION IS INCLUDED AS A SPECIAL CONDITION TO INCORPORATE THE CHANGES MADE TO THE “DESIGNATED” STANDARD CONDITION UNDER THE RGMA CHANGES INTRODUCED TO TRANSCO PLC’S LICENCE IN JULY 2004.]

1. Subject to paragraph 2, the licensee shall comply with any reasonable request by a relevant supplier (or a gas supplier who is about to become such a supplier) to provide through a Meter Asset Manager and install at the premises of a domestic customer a gas meter owned by it and of a type specified by the supplier subject, however, to a meter of that type being reasonably available to the licensee and the supplier agreeing to pay its charges in respect of the meter.

1A For the purposes of paragraph 1, “Meter Asset Manager” means:

(a) a person approved by the Authority as possessing expertise satisfactorily to provide Meter-Related Services or a class or description of persons so approved (“the relevant enterprise”); or

(b) an undertaking approved by the Authority as having staff possessing the relevant expertise

and for the purposes of this definition,

(i) “approved by the Authority” means approved by it for the purposes of this condition generally and “staff” includes officers, servants and agents; and

(ii) “Meter-Related Services” means the provision, installation, commissioning, inspection, repairing, alteration, repositioning, removal, renewal and maintenance of the whole or part of the Supply Meter Installation as defined in Section M, paragraph 1.2 of the Network Code of Transco plc as at the date this paragraph 1A has effect.

2. Paragraph 1 shall not apply where -

(a) the premises in question are secondary sub-deduct premises; and
(b) the owner or occupier of the premises has not agreed that the licensee may enter the premises for the purpose of removing the meter when the owner or occupier no longer requires the meter or the supply of gas.

3. Where any gas meter owned by the licensee is disconnected by, or returned to, the licensee it shall promptly make an appropriate record of the details displayed on the register of the meter at the time of disconnection or return and of such other information in its possession as shall subsequently enable the identity of, and the date of disconnection or return of, the meter and the premises from which it was disconnected to be ascertained, and shall keep such a record for a period of not less than 2 years from the date of the disconnection or return, whichever is the later.

4. Where the licensee has reasonable cause to believe that any gas meter owned by it and disconnected by, or returned to, it is or may be relevant to -

(a) any investigation, proceedings or possible proceedings relating to the alleged theft of gas by any person or to an alleged offence under paragraph 10(1) of Schedule 2B to the Act; or

(b) any dispute as to the accuracy of the meter,

the licensee shall use all reasonable endeavours to keep the meter in safe custody in the standard condition in which it was when disconnected or returned and with the register unaltered -

(i) during the period of 6 months beginning with the date on which the meter was disconnected or returned, for as long as the licensee continues to have reasonable cause to believe that the meter is or may be so relevant; and

(ii) thereafter, for as long as, to the licensee’s knowledge, the meter is so relevant.

5. When the licensee receives, in connection with a proposed connection or disconnection of a meter, such a notice as is mentioned in sub-paragraph (1) of paragraph 12 of Schedule 2B to the Act or receives information in pursuance of sub-paragraph (3) of that paragraph, it shall promptly give the relevant shipper a copy thereof and furnish it with any further information relating to the meter which is requested by the shipper and which the licensee either has or may readily obtain.
6. Where the record kept by the licensee under paragraph 8 of standard condition 5 (System Development Obligations) shows that a relevant supplier has supplied gas to particular premises for less than 2 years and that the supplier has not, since it began to supply gas to those premises, secured an inspection of the meter for the purposes of standard condition 17 (Reading, Inspection and Testing of Meters) of the standard conditions of Gas Suppliers’ licences as incorporated in its licence, the licensee shall give to the relevant shipper, for transmission to the supplier (except where the recipient of the notice is itself the supplier), not less than 4 months’ notice of the date by which the next such inspection should be carried out, being a date falling not more than 2 years after the date shown in the licensee’s record as the date of the last such inspection or, if later, 5 months after the licensee is informed that the supplier has begun to supply gas to the premises.
Standard Special Condition A[ ] Network Code

[N.B. THIS CONDITION WILL REQUIRE AMENDMENT TO MAKE REFERENCE TO THE AMENDED COMMERCIAL ARRANGEMENTS PUT IN PLACE THROUGH THE UNIFORM NETWORK CODE/OFF-TAKE ARRANGEMENTS. THIS CONDITION WILL ALSO NEED TO BE AMENDED TO PROVIDE FOR THE ESTABLISHMENT OF THE “JOINT OFFICE” AND THE REQUIREMENT TO MAKE USE OF THE AGENCY FUNCTION. A NEW “RELEVANT OBJECTIVE MAY ALSO BE INTRODUCED IN RELATION TO THE OPERATION OF THE UNC.

OFGEM ALSO CONSIDERING WHETHER FURTHER AMENDMENT TO THE CONDITION IS REQUIRED TO ENSURE THAT THE MODIFICATION PROCEDURES FOR THE CODES SETTING OUT THE REVISED COMMERCIAL PROCEDURES SHOULD FORM PART OF THE CODES THEMSELVES. OFGEM IS SEEKING VIEWS ON THESE ISSUES].

1. The licensee shall establish transportation arrangements in respect of matters other than those to which Special Conditions [ ] (Charging Gas Shippers - General) and A[ ] (Obligations as Regards Charging Methodology) relate which are calculated, consistently with the licensee’s duties under section 9 of the Act, to facilitate the achievement of the following objectives -

(a) the efficient and economic operation by the licensee of its pipe-line system;

(b) so far as is consistent with sub-paragraph (a), the efficient discharge of its obligations under this licence;

(c) so far as is consistent with sub-paragraphs (a) and (b), the securing of effective competition between relevant shippers and between relevant suppliers; and

(d) so far as is so consistent, the provision of reasonable economic incentives for relevant suppliers to secure that the domestic customer supply security standards (within the meaning of paragraph 4 of standard condition 32A (Security of Supply – Domestic Customers) of the standard conditions of Gas
Suppliers’ licences) are satisfied as respects the availability of gas to their
domestic customers,
hereinafter referred to as “the code relevant objectives”.

2. The licensee shall -

(a) prepare a document (in this licence referred to as the “Network Code”) setting
out (together with the terms of any other arrangements which the licensee
considers it appropriate to set out in the document) the terms of the
arrangements made in pursuance of paragraph 1 save in so far as they relate to
matters regulated by standard condition 4B (Connection Charges etc) or 4C
(Charging Gas Shippers – Supplemental Connection Charges) or are contained
in such an agreement, or an agreement of such a class or description, as may
be designated by the Authority for the purposes of this condition; and

(b) furnish the Authority with a copy thereof.

3. Where a provision of the Network Code requires that, in circumstances specified in
the provision, a determination by the licensee in pursuance of that provision in a
particular case should be such as is calculated to facilitate the achievement of the code
relevant objectives, any question arising thereunder as to whether the licensee has
complied with that requirement shall be determined by the Authority.

3A. Where the Network Code makes provision for the balancing –

(a) by the licensee of its pipe-line system and

(b) the relevant shippers of the gas they arrange with the licensee to introduce
into and take off that system

through a market established by a person who is independent of the licensee then
the following paragraphs 3B, 3C and 3D shall apply.

3B. The licensee shall in appointing any such operator as is mentioned in paragraph
3A use all reasonable endeavours to appoint a person having –

(a) financial resources,
(b) skilled and experienced personnel, and

(c) systems

adequate to ensure that the market is conducted in an orderly and proper manner according to clear and fair rules with a clearing function that enables the licensee and relevant shippers to offset any sale to any one participant in the market against any equivalent purchase from that or any other participant in the market.

3C. The requirement in paragraph 3B shall be treated as satisfied in respect of any appointment if the licensee appoints as operator a person who, at the time of appointment, is –

(a) a person recognised by the Financial Services Authority under the Financial Services Act 1986 as an investment exchange; or

(b) a person designated by the Authority for the purposes of that paragraph and if that designation has not expired or been revoked.

3D If a person appointed by the licensee in reliance on paragraph 3C ceases to be recognised as provided in sub-paragraph (a) or to be designated as provided in sub-paragraph (b) of that paragraph then the licensee shall use all reasonable endeavours to terminate the appointment of that person and, if the licensee elects that the market operated by that person shall continue to be established, to appoint another person in place of the first person in accordance with paragraph 3B.

4. The licensee shall establish and operate such procedures as are mentioned in paragraph 5 for the modification of the Network Code so as to better facilitate, consistently with the licensee’s duties under section 9 of the Act, the achievement of the code relevant objectives.

5. The procedures referred to in paragraph 4 shall be such as provide for -

(a) the reviewing of the Network Code;

(b) the making of proposals for its modification either by the licensee or by a relevant shipper or by a third party participant;
(c) the giving of adequate publicity to any such proposal including, in particular, drawing it to the attention of all relevant shippers and sending a copy of the proposal to any gas shipper or other person who asks for one;

(d) the seeking of the views of the Authority on any matter connected with any such proposal;

(e) the consideration of any representations relating to such a proposal made (and not withdrawn) by a relevant shipper or by any gas shipper or other person likely to be materially affected were the proposal to be implemented, and

(f) where the Authority accepts that the Network Code may require modification as a matter of urgency, the exclusion, acceleration or other variation, subject to the Authority’s approval, of any particular procedural steps which would otherwise be applicable.

6. The licensee shall -

(a) prepare a document (“the code modification rules”) setting out the procedures established in pursuance of paragraph 4, and shall furnish the Authority with a copy thereof. The code modification rules shall identify persons, either individually or by reference to a class of persons, who are not shippers but who may propose modifications to part or all of the Network Code (“third party participants”);

(b) not make any change in the code modification rules except -

(i) after consulting all relevant shippers and considering any representations made by such a shipper;

(ii) after furnishing the Authority with a report on such consultation and its consideration of any such representations; and

(iii) with the consent of the Authority, and

(c) furnish the Authority with a copy of any change which is made.
7. The licensee shall not make any modification to the Network Code except -

(a) to comply with paragraph 9(b) or 10; or

(b) with the consent of the Authority,

and shall furnish the Authority with a copy of any modification made.

8. Where the Health and Safety Executive have given a notice to the licensee in pursuance of this paragraph referring to a matter relating to the protection of the public from dangers arising from the conveyance of gas through its pipe-line system and a modification to the Network Code could, consistently with the code relevant objectives, appropriately deal with the matter, the licensee shall propose such a modification in accordance with the code modification rules, and any requirement that a modification be such as to better facilitate the achievement of the code relevant objectives shall be treated as met if the modification is consistent with those objectives.

9. Where a proposal is made in accordance with the code modification rules to modify the Network Code, the licensee shall –

(a) as soon as is reasonably practicable, give notice to the Authority -

(i) giving particulars of the proposal;

(ii) where the proposal is made by a relevant shipper, drawing attention to any alternative proposal to modify the Network Code in respect of the same matter which has been made by the licensee;

(iii) giving particulars of any representations by a gas shipper or other person with respect to those proposals;

(iv) stating whether, in the licensee’s opinion, any proposed modification should or should not be made;

(v) stating the factors which, in its opinion, justify the making or not making of a proposed modification; and
(vi) giving such further information as may be required to be given to the Authority by the code modification rules, and

(b) comply with any direction given by the Authority to make a modification to the Network Code in accordance with a proposal described in a notice given to the Authority under sub-paragraph (a) which, in the opinion of the Authority, will, as compared to the existing provisions of the Network Code or any alternative proposal, better facilitate, as mentioned in paragraph 4, the achievement of the code relevant objectives.

10. Where any directions are given to the licensee under section 19 or 21(1) of the Act, the licensee shall make such modifications to the Network Code as may be necessary to enable the licensee to comply with the directions under section 19 or 21(1) of the Act without contravening Standard Special Condition A[ ] (Requirement to Enter into Transportation Arrangements in Conformity with Network Code).

11. The licensee shall -

(a) prepare and publish a summary of the Network Code and of the code modification rules as modified or changed from time to time in such form and manner as the Authority may from time to time direct; and

(b) send a copy of the Network Code as modified from time to time, or of the code modification rules as so changed, to any person who asks for one and makes such payment to the licensee in respect of the cost thereof as it may require not exceeding such amount as the Authority may from time to time approve for the purposes hereof.

12. Any question arising under the code modification rules as to -

(a) whether a gas shipper or other person is likely to be materially affected by a proposal to modify the Network Code were it to be implemented; or

(b) whether representations relating to such a proposal and made in pursuance of the rules have been properly considered by the licensee,
shall be determined by the Authority.

13. In this condition “transportation arrangements” includes storage arrangements which relate to the utilisation of –

(a) an offshore gas storage installation;
(b) storage cavities in natural strata; or
(c) containers for the storage of gas in a liquid state.

14. If the Authority, having regard, in particular, to any representations made to it by the licensee and other persons as to the extent to which there is competition in relation to the storage of gas in particular categories of the facilities mentioned in paragraph 13(a), (b) or (c) and its view on that question, considers it appropriate that paragraph 13 should be modified by the omission of sub-paragraph (a), (b) or (c), then the subparagraph in question shall be omitted with effect from a date specified in a notice relating thereto published by the Authority for the purposes of this condition generally; and, if all three subparagraphs come to be omitted, paragraph 13 and the reference thereto in the definition of “transportation arrangements” in standard condition 1 (Definitions and Interpretation) shall cease to have effect.

15. If and in so far as the Authority so consents, this condition shall have effect as if the definition of “transportation arrangements” in Standard Special Condition A[ ] (Definitions and Interpretation) referred only to gas consisting wholly or mainly of methane.

16. Any reference to “relevant shipper” in any of paragraphs 5(b), 5(c), 5(e), 6(b)(i), or 9(a)(ii) shall where it relates to any proposed modification which could have been proposed by a third party participant under the code modification rules be treated as if it were also a reference to all such third party participants.
Standard Special Condition A[ ]. Provision of Services for Persons who are of Pensionable Age or Disabled or Chronically Sick: Arrangements in Respect of Meters

   (b) undertaken to pay the licensee’s reasonable expenses in complying with the request,

then, so far as it is reasonably practicable and appropriate so to do, the licensee shall comply with the request.
Standard Special Condition A[ ]. Provision of Services for Persons who are Blind or Deaf

2. The code of practice shall include arrangements by which the licensee will, on request, in each case free of charge:

Subject to paragraphs 5 and 7, the licensee shall furnish the Authority, in such manner and at such times as the Authority may reasonably require, such information and shall procure and furnish to it such reports, as the Authority may reasonably require or as may be necessary for the purpose of performing -

(a) the functions conferred on the Authority by or under the Act; and

(b) any functions transferred to or conferred on the Authority by or under the Utilities Act 2000.

2. The licensee shall procure from each company or other person which the licensee knows or reasonably should know is at any time an ultimate controller of the licensee a legally enforceable undertaking in favour of the licensee in a form specified by the Authority that that ultimate controller (“the information covenantor”) will give to the licensee, and will procure that any person (including, without limitation, a corporate body) which is a subsidiary of, or is controlled by, the information covenantor (other than the licensee and its subsidiaries) will give the licensee, all such information as may be necessary to enable the licensee to comply fully with the obligation imposed on it in paragraph 1. Such undertaking shall be obtained within 7 days of such corporate body or other person in question becoming an ultimate controller of the licensee and shall remain in force for so long as the licensee remains the holder of this licence and the information covenantor remains an ultimate controller of the licensee.
3. The licensee shall deliver to the Authority evidence (including a copy of each such undertaking) that the licensee has complied with the obligation to procure undertakings pursuant to paragraph 2, and shall comply with any direction from the Authority to enforce any undertaking so procured.

7. This condition shall not require the licensee to produce any documents or give any information which it could not be compelled to produce or give in evidence in civil proceedings before a court.

8. The power of the Authority to call for information under this condition is in addition to the power of the Authority to call for information under or pursuant to any other

9. In this condition “transportation business” includes storage arrangements which relate to the utilisation of–

11. If the Authority, having regard, in particular, to any representations made to it by the licensee and other persons as to the extent to which there is competition in relation to either metering or meter reading and its view on that question, considers it appropriate that references to either the provision of Metering Services or of Meter Reading Services should be deleted for the purposes of paragraph 9 of this
condition, those references shall cease to have effect from the date or dates specified in a notice published by the Authority for that purpose.

   (c) prepare a version of the statement or revision which excludes, so far as is practicable, any such matter as is mentioned in paragraph 4 and send a copy thereof to any person who asks for one and makes such payment to the licensee in respect of the cost thereof as it may require not exceeding such amount as the Authority may from time to time approve for the purposes hereof.

4. In complying with the requirements of paragraph 3(b), the licensee shall have regard to the need for excluding, so far as is practicable, any matter which relates to the affairs of a person where the publication of that matter would or might seriously and prejudicially affect his interests.

5. Any question arising under paragraph 4 as to whether the publication of some matter which relates to the affairs of a person would or might seriously and prejudicially affect his interests shall be determined by the Authority.
6. In this condition “transportation arrangements” includes storage arrangements which relate to the utilisation of—
   (a) an offshore gas storage installation;

The licensee shall publish, in such manner as shall be appropriate to bring it to the attention of persons likely to be affected by it, a statement setting out the circumstances in which a fee is payable and the amount of any such fee.

7. Paragraph 5 shall not require the licensee to produce any documents or provide any information which it could not be compelled to produce or give in evidence in civil proceedings before the court.

5. Save in so far as they relate to management resources, the licensee shall use its best endeavours to obtain and submit to the Authority with each certificate provided for in paragraph 2 a report prepared by its auditors and addressed to the Authority stating whether or not the auditors are aware of any inconsistencies between, on the one hand,
that certificate and the statement submitted with it and, on the other hand, any information which they obtained during their audit work.

(b) The certificate shall be signed by a director of the licensee and approved by a resolution of the board of directors of the licensee passed not more than 14 days before the date on which the declaration, recommendation or payment will be made.

Standard Special Condition A[ | Conveyance to Independent Systems

[N.B. OFGEM PUBLISHED AN OPEN LETTER ON 6 AUGUST 2004 INDICATING THAT IT WILL BE CONSIDERING ISSUES RAISED BY THE NETWORK SALES FOR THIS CONDITION AND WILL INFORM INTERESTED PARTIES OF ITS CONCLUSIONS. IT IS ANTICIPATED THAT ANY AMENDEMENTS CONSIDERED NECESSARY WOULD BE INTRODUCED AS PART OF THE SECTION 8AA TRANSFER PROCESS]

and such premises as aforesaid are for the purposes of this condition referred to as “relevant premises”.

2. Where the gas which was conveyed by the independent system on the appointed day consisted principally of methane, the licensee shall provide arrangements for the conveyance of gas to relevant premises connected to the system from the principal pipe-line system of the licensee, and its average charges for such conveyance shall be no more than the average charges for all conveyance to premises in Great Britain supplied with gas at a similar rate, connected otherwise than to independent systems, which the licensee charged on the appointed day, adjusted in line with the Retail Price Index from that date.

3. Where the gas which was conveyed by the independent system on the appointed day consisted wholly or mainly of propane or butane or of a combustible mixture of propane or butane with air, the licensee shall provide arrangements for the conveyance of propane or butane (according to the composition of the gas being conveyed in the system) from any bulk supply point (whether or not in Great Britain) notified by the licensee to the Authority and approved by him, to relevant premises connected to the
system (including, in such conveyance, the mixture of the propane or butane with air to meet the requirements of the system) and shall charge for such conveyance no more than the amount which would have applied had paragraph 2 been applicable less an amount assessed by it each year to be equal to the difference between its reasonable estimates of the average price for liquefied petroleum gases supplied to large industrial customers in Great Britain and the average price of gas consisting principally of methane supplied to large industrial customers in Great Britain.

4. In this condition references to “charges” for conveyance shall exclude references to supplemental charges within the meaning of standard condition 4C (Charging of Gas Shippers - Supplemental Connection Charges).

5. Standard condition 27 (Adjustment of Amounts by Reference to the Retail Price Index) shall apply for the purpose of adjustments to be made by reference to the Retail Price Index.

1. If so directed by the Authority after consultation with the Health and Safety Executive, the licensee shall offer to enter into an agreement with such other person for the time being holding a licence granted under section 7 of the Act as a gas transporter or any applicant for such a licence, as may be specified in the direction, relating to the provision of emergency services to or on behalf of that person (including where necessary the repair of pipes) where a major loss of supply has occurred.

2. For the purposes of paragraph 1, the terms of such an offer shall be such as are reasonable in all the circumstances, but may at the discretion of the licensee include terms providing for the recovery of all costs reasonably related to such emergency service provision, a reasonable commercial profit and appropriate indemnities against third party claims.

3. Nothing in this condition shall require the licensee to employ more staff or to maintain any stock of spares or equipment more extensive than it would otherwise employ or maintain for the purposes of its transportation business.

Standard Special Condition A[i]: Restriction of prices in respect of tariff capped metering activities

[N.B. THIS IS A SPECIAL CONDITION CURRENTLY APPLICABLE ONLY TO TRANSCO PLC.

OFGEM INTENDS TO APPLY THIS CONDITION TO ALL NTS AND DN-GT LICENSEES. FURTHER CONSIDERATION IS BEING GIVEN TO THE APPORTIONMENT OF THE TARIFF CAP. OFGEM INVITES VIEWS ON THIS PROPOSAL.]

1. Principal restriction

The licensee in setting its charges for each of its tariff-capped metering activities in any formula year shall not exceed the maximum tariff cap in respect of that metering activity in respect of that formula year \( (M^A_t) \).

2. Maximum tariff caps \( (M^A_t) \)

For the purposes of paragraph 1 of this Special Condition the maximum tariff cap for each tariff-capped metering activity in respect of formula year \( t (M^A_t) \) shall be derived in the following manner:

(1) In respect of the formula year commencing on 1 April 2002 \( (t=1) \), the maximum tariff caps shall have the values set out in the following table:

<table>
<thead>
<tr>
<th>Activity</th>
<th>Description</th>
<th>Maximum tariff caps ( (M^A_t) )</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Annual charge for providing and maintaining the assets that form a domestic credit meter installation, per meter per ( RPI_0 \times (1+RPI_0) )</td>
<td>£12.29</td>
</tr>
<tr>
<td></td>
<td>Description</td>
<td>Charge (as of 1 April 2020)</td>
</tr>
<tr>
<td>---</td>
<td>-----------------------------------------------------------------------------</td>
<td>----------------------------</td>
</tr>
<tr>
<td>2</td>
<td>Annual charge for providing and maintaining the assets that form a prepayment meter installation, per meter per annum</td>
<td>£27.29 ( \times (1 + \text{RPI}_0) )</td>
</tr>
<tr>
<td>3</td>
<td>Annual charge for providing a daily meter reading for daily metered supply meter points, per supply meter point per annum</td>
<td>£340.00 ( \times (1 + \text{RPI}_0) )</td>
</tr>
<tr>
<td>4</td>
<td>Carrying out the work to replace a domestic credit meter with a prepayment meter, per job undertaken</td>
<td>£46.00 ( \times (1 + \text{RPI}_0) )</td>
</tr>
</tbody>
</table>

(2) Otherwise, prior to the formula year commencing 1 April 2005:

\[
M_t^A = M_{t-1}^A + \left( M_{t-1}^A \times \text{RPI}_t \right) \text{ (rounded up or down to the nearest penny).}
\]

where:

- \( \text{RPI}_0 \) means the percentage change (whether of a positive or negative value) in the arithmetic average of the retail price index published or determined with respect to each of the six months from April to September (both inclusive) in the year 1999 and of the arithmetic average of the retail price index numbers published or determined in each of the six months from July to December (both inclusive) in the year 2001; and

- \( \text{RPI}_t \) means the percentage change (whether of a positive or a negative value) in the arithmetic average of the retail price index published or determined with respect to each of the six months from June to November (both inclusive) in formula year t-1 and the arithmetic average of retail price index numbers published or determined with respect to the same months in formula year t-2.
(3) In respect of the formula year commencing 1 April 2005 and subsequent formula years the value of $M^A_t$ shall be determined using the following formulae:

(i) For Activity 1 and 2 the value of $M^A_t$ will be calculated using the following formula:

$$M^A_t = \left( M^A_{t-1} + \left( M^A_{t-1} \times RPI_t \right) \right) - R_t$$

(ii) For Activity 3 and 4 the value of $M^A_t$ will be calculated using the following formula:

$$M^A_t = M^A_{t-1} + \left( M^A_{t-1} \times RPI_t \right)$$

(4) In respect to the formula year commencing 1 April 2005, the value for $R_t$ shall be calculated using the following formula:

$$R_t = £1.10 + (£1.10 \times RPIr_t) \text{ (rounded up or down to the nearest penny)}$$

(i) Where:

$$RPIr_t$$

Means the percentage change (whether of a positive or negative value) in the arithmetic average of the retail price index published or determined with respect to each of the six months from June to November (both inclusive) in the year 2001 and of the arithmetic average of the retail price index numbers published or determined in each of the six months from June to November (both inclusive) in the year 2004.

(ii) In respect of the formula year commencing 1 April 2006 and subsequent formula years the value for $R_t$ shall be zero.

- **prepayment meter installation** means a domestic sized meter and associated equipment and installations (excluding housing) within the definition of a supply meter installation (having the meaning given to that term in the licensee’s Network Code) through which gas, which is charged for as it is used, is supplied.

4. **Departures from published statements of charges in respect of tariff-capped metering activities**

(1) Where the licensee wishes to depart from its published statement of charges prepared in accordance with Standard Special Condition A[ ] (Provision of Metering and Metering Reading Services) in respect of the provision of tariff
capped metering activities by increasing its charges to a supplier to a level which would result in any given formula year in a breach of its obligations under paragraph 1 of this Special Condition:

(a) in consequence of that supplier having unbundled part of its supplier’s metering portfolio; or

(b) where it reasonably considers that the departure is necessary to comply with its duty in paragraph 1A of Standard Special Condition A[ ] (Provision of Metering and Meter Reading Services),

the licensee shall make a written application to the Authority specifying why the change is requested, providing specification of the metering activities to be provided to that supplier, the proposed level of charge broken down between the different types of metering activities to be provided to that shipper together with such other information to support its application as the Authority may reasonably specify in writing.

(2) The licensee may, with effect from the date of the application, levy the charges specified in that application in respect of that supplier if:

(a) the Authority confirms in writing that it consents to such charges with or without amendment and to such extent and on the basis of such terms and conditions as the Authority may specify; or

(b) if the Authority has not issued a direction to the licensee requiring the licensee not to exceed the maximum tariff cap within 90 days after receipt of the application.

5. **Disapplication of the maximum tariff caps**

(1) The maximum tariff caps shall apply so long as this licence continues in force but shall cease to have effect in such circumstances and at such times as are described in paragraphs 5(2) to 5(8) of this Special Condition.
(2) The maximum tariff caps shall cease to have effect (in whole or in part as the case may be) if the licensee delivers to the Authority a disapplication request made in accordance with paragraph 5(3) of this Standard Special Condition and notice is given to the Authority by the licensee in accordance with either paragraph 5(6) or paragraph 5(7) of this Special Condition.

(3) A disapplication request shall:

(i) be in writing addressed to the Authority;

(ii) specify the maximum tariff cap or caps to which the request relates; and

(iii) state the date (being not earlier than the date referred to in paragraph 5(5) of this Special Condition) from which the licensee wishes the Authority to agree that the maximum tariff cap or caps shall cease to have effect.

(4) The licensee may withdraw a disapplication request at any time.

(5) Save where the Authority otherwise agrees, no disapplication following delivery of a disapplication request pursuant to paragraph 5(3) of this Special Condition shall have effect until a date being not less than 18 months after delivery of the disapplication request ("the disapplication date").

(6) If the Authority has not made a reference to the Competition Commission under section 24 of the Act relating to the modification of the maximum tariff cap or caps specified in the disapplication request before the beginning of the period of 12 months which will end with the disapplication date and the licensee has not withdrawn the disapplication request, the licensee may deliver written notice to the Authority terminating the application of the maximum tariff cap or caps as specified in the disapplication request with effect from the disapplication date or a later date.

(7) If the Competition Commission makes a report on a reference made by the Authority relating to the modification of the maximum tariff cap or caps specified in the disapplication request and such report does not include a conclusion that the cessation of such maximum tariff caps, in whole or in part, operates or may be
expected to operate against the public interest, the licensee may within 30 days after
the publication of the report by the Authority in accordance with section 25 of the
Act deliver to the Authority written notice terminating the application of the
maximum tariff cap or caps specified in the disapplication request with effect from
the disapplication date or later.

(8) A disapplication request or notice served under this Special Condition may be
served in respect of a specified geographic area.

3. Notwithstanding paragraph 2 of this Special Condition, the licensee shall not make any charges in respect of metering activities in respect of any item of charge separately identified in the statements referred to in paragraph 5 of Standard Special Condition A[ ] (Provision of metering and meter reading services) on any shipper whose contract does not provide for him to receive the activity to which such item of charge refers.

(2) Except with the Authority’s prior written consent, the licensee shall ensure that the charges made for the Supply of LNG Storage Services in each Formula Year commencing on or after 1 April 2000 are the charges set out in the table in sub-paragraph 1(1) above.

(3) For each Formula Year for which the licensee charges for the Supply of LNG Storage Services in accordance with this paragraph 1 the licensee, so far as concerns LNG storage arrangements, shall be deemed to have complied for that Formula Year with the provisions of Standard Special Conditions A[  ] (Charging of Gas Shippers - General) and A[  ] (Obligations as Regards Charging Methodology).

2 (1) This condition shall apply for so long as this licence continues in force, but shall cease to have effect if -

(a) the licensee delivers to the Authority a written request made in accordance with sub-paragraph (2) below (“disapplication request”) and the Authority agrees in writing to the disapplication request; or

(b) its application is terminated by notice given by the licensee in accordance with either sub-paragraph (3) or sub-paragraph (4) below.

(2) Any disapplication request shall be in writing, addressed to the Authority, and shall state the date (“disapplication date”) from which the licensee wishes the Authority to agree that this condition shall cease to have effect, but the disapplication date therein shall not be before the later of any date which is not less than 18 months after the date upon which the disapplication request is delivered to the Authority. The licensee may at any time withdraw a disapplication request.

(b) the licensee has not withdrawn the disapplication request
the licensee may deliver written notice to the Authority terminating the application of this condition with effect from the disapplication date or a later date, save that no such notice may take effect before the end of a period of 12 months from the date of delivery of that notice to the Authority.

(4) If the Competition Commission makes a report on a reference by the Authority relating to the modification of this condition after a disapplication request, and such report does not include a conclusion that the cessation of this condition, in whole or in part, operates, or may be expected to operate against the public interest, the licensee may within thirty days after the publication of the report by the Authority deliver to it written notice terminating the application of the condition with effect from the disapplication date or a later date.
Special Condition B | Prohibited procurement activities

[N.B. OFGEM IS SEEKING VIEWS ON ITS INITIAL PROPOSALS THAT THIS CONDITION SHOULD BE SPLIT SO THAT THE NTS LICENSEE WILL BE PERMITTED TO ENGAGE IN THE PROCUREMENT ACTIVITIES FOR THE PURPOSES OF FACILITATING BALANCING MANAGEMENT, AND ALLOWING BOTH THE NTS AND DN LICENSEES TO ENGAGE IN PROCUREMENT ACTIVITIES FOR THE PURPOSES OF FACILITATING CONSTRAINT MANAGEMENT. IF THIS APPROACH IS ADOPTED, A SIMILAR CONDITION WILL APPEAR IN THE STANDARD SPECIAL CONDITIONS APPLICABLE TO ALL DN LICENSEES.

FURTHER AMENDMENTS WILL ALSO BE REQUIRED IN ORDER TO CROSS-REFER TO THE UNC/OFFTAKE CODE.]

1. Except with the written consent of the Authority, the licensee shall not and shall procure that any affiliate or related undertaking of the licensee shall not, on its own account (or that of the licensee or of any affiliate or related undertaking of the licensee as the case may be), purchase, enter into or otherwise acquire transportation commodities, gas or gas derivatives with the intention of subsequently selling, assigning or otherwise disposing of such assets to third parties.

2. The prohibition in paragraph 1 of this Special Condition shall not apply to the purchase, entering into or acquisition by the licensee or any affiliate or related undertaking on the account of the licensee of transportation commodities, gas or gas derivatives with the intention of selling, assigning or otherwise disposing of such transportation commodities, gas or gas derivatives for the purpose of facilitating balancing management and constraint management so long as such transactions:

   (a) are conducted on economic and efficient terms; and

   (b) facilitate the economic and efficient operation of the transportation system.
3. In this Special Condition:

balancing management means the balancing of the NTS through the management of inputs and off-takes of gas to and from the NTS. For the avoidance of doubt such management includes but is not necessarily limited to:

(i) the acquisition or disposal of gas to replace gas lost from the system in respect of NTS shrinkage (having the meaning given to that term in the licensee's Network Code);

(ii) the licensee's functions as Top-up Manager (having the meaning given to that term in the licensee's Network Code); and

(iii) the procurement of gas storage capacity for the purposes of meeting operating margins requirements (having the meaning given to that term in the licensee's Network Code);

balancing trade means an eligible balancing action (having the meaning given to that term in the licensee's Network Code);

capacity rights means rights allocated in accordance with the licensee's Network Code to input up to a given volume of gas to the NTS or off-take up to a given volume of gas from the NTS;

constraint management means the management of capacity rights;

derivative shall have the meaning given to it in the Glossary to the Handbook of Rules and Guidance issued by the Financial
Services Authority pursuant to the Financial Services and Markets Act 2000 as at 1 April 2002;

NTS means the licensee's national transmission system (having the meaning given to that term in the licensee's Network Code); and

transportation commodities means (including derivatives of such commodities) balancing trades and capacity rights.
Special Condition B[ ]. Licensee’s procurement and use of system management services

[N.B.OFGEM IS CURRENTLY SEEKING VIEWS AS TO WHETHER THIS CONDITION SHOLD BE SPLIT, SUCH THAT]

- AN OBLIGATION IS PLACED ON THE NTS GT LICENSEE NOT TO UNDULY DISCRIMINATE IN THE PROCUREMENT OR USE OF SYSTEM MANAGEMENT SERVICES;

- AN OBLIGATION IS PLACED ON THE DN GT LICENSEES NOT TO UNDULY DISCRIMINATE IN THE PROCUREMENT OR USE OF CONSTRAINT MANAGEMENT SERVICES.

- AN ADDITIONAL REQUIREMENT BE INTRODUCED OBLIGING LICENSEES NOT TO PREJUDICE EACH OTHERS’ SYSTEMS (SIMILAR TO SC3 OF THE SHIPPER LICENCES.

IF THIS APPROACH IS ADOPTED, A SIMILAR CONDITION WILL APPEAR IN THE STANDARD SPECIAL CONDITIONS APPLICABLE TO ALL DN LICENSEES.

FURTHER AMENDMENTS WILL NEED TO BE MADE TO THIS CONDITION DEPENDING ON THE OUTCOME OF THE ABOVE.]

1. The licensee shall operate the NTS in an efficient, economic and co-ordinated manner.

2. The licensee shall neither unduly discriminate nor unduly prefer in its procurement or use of system management services as between any persons or classes of persons.

3. The licensee shall before 1 October 2002 or such later date as the Authority may direct and thereafter before 1 April in each subsequent formula year (or such longer period as the Authority may approve) prepare a statement in a form approved by the Authority setting out (consistently with the licensee’s duties under paragraph 1 and
2 of this Special Condition and consistently with its other duties under the Act, and the standard, amended standard and Special Conditions) the kinds of system management services which it may be interested in purchasing in the period until the next statement is due, to be published pursuant to paragraph 11(a) in this Special Condition and the mechanisms by which it envisages purchasing, entering into or otherwise acquiring them, and the licensee shall revise such statement during any such period if its intentions change during that period.

4. Within one month after the date on which each statement, prepared pursuant to paragraph 3 of this Special Condition (other than the first one) is due to be published pursuant to paragraph 11(a) of this Special Condition (“the due date”), the licensee shall prepare a report in a form approved by the Authority in respect of the system management services which the licensee has bought or acquired in the period of 12 months (or such longer period as the Authority may approve or require) ending on the due date.

5. The licensee shall before 1 October 2002 or such later date as the Authority may direct prepare a statement in a form approved by the Authority setting out the principles and criteria (consistent with the licensee’s duties under paragraph 1 and 2 of this Special Condition and consistent with its other duties under the Act, and the standard, amended standard and Special Conditions) by which the licensee will determine, at different times and in different circumstances, which system management services the licensee will use to assist it in the operation of the NTS, and for what purpose, and when the licensee would resort to measures not involving the use of system management services in the operation of the NTS.

6. (a) This paragraph applies where the licensee's Network Code provides that any charge is to be determined (in whole or in part) by reference to the costs and volumes of relevant system management services.

(b) Where this paragraph applies the licensee shall:

(i) prepare a statement of the prevailing system management services adjustment data methodology as approved by the Authority;
(ii) from time to time thereafter, when the licensee first buys, sells or acquires any relevant system management services of a kind or under a mechanism which is not covered by the prevailing system management services adjustment data methodology, promptly seek to establish a revised system management services adjustment data methodology approved by the Authority which covers those kinds of system management services mechanisms for buying, selling or acquiring them;

(iii) before 1 October 2002, or such later date as the Authority may direct establish a system management services adjustment data methodology approved by the Authority; and

(iv) at all times determine and provide (for use under the relevant provisions of the licensee's Network Code) the costs and volumes of relevant system management services in compliance with the prevailing system management services adjustment data methodology, which are to be taken into account in determining charges relating to system management services under the licensee's Network Code.

(c) Except where the Authority directs otherwise, before revising the system management services adjustment data methodology the licensee shall:

(i) send a copy of the proposed revisions to the Authority and to any person who asks for one;

(ii) consult shippers and allow them a period of not less than 28 days in which to make representations;

(iii) within 7 days of the close of the consultation referred to in sub-paragraph 6(c)(ii) of this Special Condition submit to the Authority a report setting out:

(iv) where the Authority directs that sub-paragraphs (i), (ii) and (iii) of this paragraph or any of them shall not apply, comply with such other requirements as are specified in the direction.

(d) The licensee shall not revise the system management services adjustment data methodology:

(i) where sub-paragraph 6(c)(iv) in Part 2 of this Special Condition applies, before the day (if any) specified in the direction made pursuant to that sub-paragraph;

(ii) where there is no such direction, or no date is specified in such direction, until the expiry of 28 days from the date on which the Authority receives the report referred to in sub-paragraph 6(c)(iii) in of this Special Condition; or

7. (a) The licensee shall as soon as practicable after the end of each formula year prepare a report on the manner in which and the extent to which the licensee has, during that formula year, complied with the statement prepared pursuant to paragraph 5 of this Special Condition and whether any modification should be made to that statement to reflect more closely the practice of the licensee.

(b) The report shall be accompanied by a statement from appropriate auditors that they have carried out an investigation, the scope and objectives of which shall have been established by the licensee and approved by the Authority, and giving their opinion as to the extent to which the licensee has complied with the statement prepared pursuant to paragraph 5 of this Special Condition.

8. (a) The licensee shall if so directed by the Authority but in any event at least once a year review the statement prepared pursuant to paragraph 5 of this Special
Condition in consultation with shippers and other interested persons likely to be affected thereby and allow them a period of not less than 28 days in which to make representations.

(i) a report on the outcome of the review;

(iii) any written representations or objections from shippers and other interested parties, including proposals for revision not accepted by the licensee, arising during the consultation and subsequently maintained.

(c) The licensee may revise the statement only in accordance with any revision within sub-paragraph 8(b)(ii) of this Special Condition, and only if the Authority consents to such revision.

9. The licensee shall take all reasonable steps to comply with the statement for the time being in force pursuant to paragraph 5 of this Special Condition.

10. The licensee shall send to the Authority a copy of each of the statements and reports prepared pursuant to paragraphs 3, 4, 5, 6, 7 and 8 of this Special Condition and of all revisions to any such statements and reports.

   (a) publish by such date (and in such manner) as the Authority may approve the statements prepared pursuant to paragraphs 3, 5 and 6 of this Special Condition and each revision thereof; and
(b) send a copy of each statement and report prepared pursuant to paragraphs 3, 4, 5, 6, 7 and 8 of this Special Condition or the latest revision of any such statement and report to any person who requests the same, provided that the licensee shall exclude therefrom, so far as is practicable, any matter which relates to the affairs of any person where the publication of that matter would or might seriously and prejudicially affect his interests,

and, for the purposes of paragraph 11(b) of this Special Condition, the licensee shall refer for determination by the Authority any question as to whether any matter would or might seriously and prejudicially affect the interests of any person (unless the Authority consents to the licensee not doing so).

   (i) on an objective basis; and

   (ii) in a manner calculated not to benefit unduly the licensee or any other company or organisation.

   (a) paragraph [2 of Part 1 a] of Special Condition B[ ] (Restriction of revenue in respect of the NTS transportation owner activity and the NTS system operation activity); and

   (b) paragraph [13 of Part 2] of Special Condition B[ ] (Restriction of revenue in respect of the NTS transportation owner activity and the NTS system operation activity).

3. The whole or an appropriate proportion of the charges received for the following may be treated as excluded services:

   (a) subject in each case to paragraphs 11 and 12 of standard condition 48 (Last Resort Supply: Payment Claims), are of an amount equal to the increases in its charges pursuant to paragraph 5 of said standard condition 48; or
(b) derive from supplemental charges within the meaning of standard condition 4C (Charging Gas Shippers – Supplemental Connection Charges); or

(c) derive from charges in respect of the provision of emergency services under contracts entered into pursuant to Standard Special Condition A[ ] (Emergency services to or on behalf of another gas transporter); or

(d) represent revenue equal to any allowance made or charges (in respect of gas treated as not having been taken out of its pipeline system) required to be foregone for the purpose of paragraphs 5 and 6 of standard condition 7 (Provision of Information Relating to Gas Illegally Taken); or

(e) derive from the execution of works in connection with the provision of, or the carrying out of modifications to, points at which gas may be introduced into or taken off the transportation system.

4. There may with the approval of the Authority be treated as an excluded service any service of a type not referred to which:

(a) consists in the provision of services for the specific benefit of a third party requesting the same; and

(b) is not made available by the licensee as a normal part of its NTS TO activity or NTS SO activity.

5. Where the Authority is satisfied that in light of the principles set out in paragraphs 2 to 4 inclusive of this Special Condition any service treated by the licensee as an excluded service should not be so treated, the Authority shall issue directions to that effect and such service shall cease to be treated as an excluded service with effect from the date of issue of such directions or such earlier date as specified in the directions being not earlier than the commencement of the relevant year to which the statement last furnished to the Authority pursuant to paragraph 3 of Special Condition B[ ] (Allocation of Revenues and Costs of Calculations under the Price Control) prior to issue of such directions related, unless such statement or the accompanying report or certificate referred to in paragraph 5
of that Special Condition or any earlier such statement, report or certificate was incorrect or misleading in any material respect.
Special Condition B[ ]: Information to be provided to the Authority in connection with the transportation system revenue restriction

[N.B. THIS CONDITION HAS BEEN AMENDED FROM THE CURRENT SPECIAL CONDITION 33 IN ORDER THAT IT APPROPRIATELY REFLECTS THOSE PROVISIONS WHICH RELATE TO AND ARE RELEVANT TO THE NTS. OFGEM IS CURRENTLY SEEKING VIEWS ON THIS APPROACH.]

1. The licensee shall provide statements to the Authority of the information specified in the following table for the periods identified in that table and by the dates specified in that table. Where information is derived from a formula defined in the licence, the component parameters of that formula shall also be reported. Where information is requested in respect of periods of less than a full formula year, the licensee shall provide such information on a reasonable endeavours basis. All revenue and information provided shall comply with Special Condition B[ ] (Allocation of revenue and costs for calculations under the price control).

2. If, prior to the fulfilment of its obligations under paragraph 3 of this Special Condition, the licensee becomes aware of any inaccuracies in respect of information it has provided to the Authority in pursuance of its obligations under paragraph 1 of this Special Condition, the licensee shall notify the Authority as soon as possible and in any case within two weeks of becoming aware of the inaccuracies.
Condition it shall notify such inaccuracies to the Authority together with details of why such information is inaccurate and of the correct information.

3. As soon as reasonably practical after the end of each formula year and in any event no later than three months after the end of the formula year the licensee shall send to the Authority a reconciliation of the information provided in accordance with paragraph 1 of this Special Condition for periods of less than the formula year with that provided for the full formula year together with a written explanation of any discrepancies.

4. The reconciliations provided by the licensee under paragraph 3 of this Special Condition shall be accompanied by a report prepared by appropriate auditors addressed to the Authority which indicates whether, in their opinion:

- that statement fairly presents so far as it reasonably possible to do so the licensee’s performance against each of the performance measures provided for in Special Condition B[ ] (Restriction of revenue in respect of the NTS transportation owner activity and the NTS system operation activity) in respect of the formula year to which the statement relates; and

- that statement used data compiled in accordance with Special Condition B[ ] (Allocation of revenues and costs for calculations under the price control) and is consistent with the licensee’s accounting records; and

- any explanations given by the licensee under paragraphs 2 and 3 of this Special Condition in respect of the formula year in question were reasonable and consistent with the information supplied.

5. The licensee shall provide a statement of the following information to the Authority and publish that statement not later than seven (7) days prior to the start of any allocation of entry capacity rights in respect of capacity rights offered for sale for a consecutive period of more than one (1) day:

(a) the terminal to which such allocation relates;
(b) the amount of unallocated NTS SO baseline entry capacity and unallocated obligated incremental entry capacity at the terminal (both as defined in Special Condition B[ ] (Revenue restriction definitions)) that is available on the day that the statement is published which the licensee will offer for sale in the allocation and the period to which such capacity relates;

(c) the reserve price if any to be applied to such allocations;

(d) the licensee’s opinion as to future levels of entry capacity at the terminal to which the allocation relates accompanied by background information (if any) in support of such opinion including the licensee’s opinion as to future aggregate volumes of gas to be transported through the NTS;

(e) the commencement time and date of the allocation; and

(f) when the shippers shall be informed of the outcome of the allocation;

6. The licensee shall provide a statement of the following information, by terminal and by the month to which it relates, to the Authority and publish that statement not later than fourteen (14) days after the close of any allocation of entry capacity rights in respect of capacity rights offered for sale for a consecutive period of more than one (1) day:

(a) the volume of NTS SO baseline entry capacity, obligated incremental entry capacity and non-obligated incremental entry capacity allocated;

(b) the total amount of the revenue derived and to be derived by the licensee in respect of the NTS SO baseline entry capacity, obligated incremental entry capacity and non-obligated incremental entry capacity allocated;

(c) the highest price accepted by the licensee for a unit of entry capacity allocated;

(d) the lowest price accepted by the licensee for a unit of entry capacity allocated; and

(e) the weighted average price accepted by the licensee for a unit of entry capacity allocated.
Special Condition B[__]. Licensee’s methodology for determining incremental entry capacity volumes

[N.B. THIS SPECIAL CONDITION APPLIES TO THE NTS LICENSEE ONLY. FURTHER AMENDMENT MAY BE REQUIRED IN ORDER TO REFERENCE NTS EXIT CAPACITY VOLUMES. OFGEM IS SEEKING VIEWS ON THIS ISSUE.]

1. In this Special Condition:

   incremental entry capacity means capacity that is in excess of the obligated entry capacity current at that time as determined in line with paragraph 14(5)(g) of Part 2 of Special Condition B[__] (Restriction of revenue in respect of the NTS transportation owner activity and the NTS system operation activity).

2. The licensee shall before 1 October 2002 or such later date as the Authority may direct and thereafter before 1 July in each subsequent formula year (or such longer period as the Authority may approve) prepare and submit an incremental entry capacity release methodology statement in a form approved by the Authority setting out (consistently with the licensee’s duty under the Act, and the standard, amended standard and Special Conditions) the methodology by which it will determine whether to make incremental entry capacity available for sale to shippers.

3. The statement shall be accompanied by a statement from the licensee's auditors confirming that they have carried out an investigation, the scope and objectives of which shall have been established by the licensee and approved by the Authority, and giving their opinion as to the extent to which the licensee has developed a methodology that is in line with the licensee’s duty under the Act, and the standard, Standard Special Conditions and Special Conditions.

4. Unless the Authority otherwise directs within 2 months, the licensee shall take all reasonable steps to apply the methodology set out in the statement produced pursuant to
paragraph 2 of this Special Condition in making any decisions on whether to release incremental entry capacity for sale to shippers.

5. Except where the Authority directs otherwise, before revising the incremental entry capacity release methodology statement the licensee shall:

   (i) send a copy of the proposed revisions to the Authority and to any person who asks for one;

   (ii) consult shippers and allow them a period of not less than 28 days in which to make representations;

   (iii) within 7 days of the close of the consultation referred to in sub-paragraph 5(ii) of this Special Condition submit to the Authority a report setting out:

       - the revisions originally proposed,

       - the representations (if any) made to the licensee,

       - any change to the revisions; and

   (iv) where the Authority directs that sub-paragraphs (i), (ii) and (iii) of this paragraph or any of them shall not apply, comply with such other requirements as are specified in the direction.

6. The licensee shall not revise the incremental entry capacity release methodology statement:

   (i) where paragraph 5(iv) in this Special Condition applies, before the day (if any) specified in the direction made pursuant to that sub-paragraph;

   (ii) where there is no such direction, or no date is specified in such direction, until the expiry of 28 days from the date on which the Authority receives the report referred to in sub-paragraph 5(iii) in this Special Condition; or
(iii) if within the period referred to in paragraph 5(ii) of this Special Condition the Authority directs the licensee not to make the revision.

7. (a) The licensee shall if so directed by the Authority but in any event at least once a year review the statement prepared pursuant to paragraph 2 of this Special Condition in consultation with shippers and other interested persons likely to be affected thereby and allow them a period of not less than 28 days in which to make representations.

(b) Within 7 days of the close of the consultation referred to in paragraph 7(a) of this Special Condition, the licensee shall send to the Authority:

(i) a report on the outcome of the review;

(ii) any revision to the statement proposed (having regard to the outcome of the review) by the licensee in order to ensure that the statement remains consistent with the licensee's duties under the Act and the standard conditions, Standard Special Conditions and Special Conditions; and

(iii) any written representations or objections from shippers and other interested parties, including proposals for revision not accepted by the licensee, arising during the consultation and subsequently maintained.

(c) The licensee may revise the statement only in accordance with any revision within paragraph 7(b)(ii) of this Special Condition and only if the Authority consents to such revision.

8. The licensee shall take all reasonable steps to comply with the statement for the time being in force pursuant to paragraph 2 of this Special Condition.

9. The licensee shall send to the Authority a copy of each of the statements and reports prepared pursuant to paragraphs 2, 3, 4, 5, 6 and 7 of this Special Condition and of all revisions to any such statements and reports.

10. The licensee shall:
(a) publish (in such manner as the Authority may approve) the statements prepared pursuant to paragraph 2 of this Special Condition and each revision thereof, and

(b) send a copy of each statement and report prepared pursuant to paragraphs 2, 3, 4, 5, 6 and 7 of this Special Condition or the latest revision of any such statement and report to any person who requests the same, provided that the licensee shall exclude therefrom, so far as is practicable, any matter which relates to the affairs of any person where the publication of that matter would or might seriously and prejudicially affect his interests,

and, for the purposes of paragraph 10(b) of this Special Condition, the licensee shall refer for determination by the Authority any question as to whether any matter would or might seriously and prejudicially affect the interests of any person (unless the Authority consents to the licensee not doing so).

11. The licensee may make a charge for any copy of a statement, report or revision sent pursuant to paragraph 10(b) of this Special Condition of an amount reasonably reflecting the licensee’s reasonable costs of providing such a copy which shall not exceed the maximum amount specified in directions issued by the Authority for the purpose of this Special Condition.
Special Condition B[ ]. NTS performance reporting

[N.B. THIS SPECIAL CONDITION APPLIES TO THE NTS LICENSEE ONLY.]

1. The principal purpose of this Special Condition is to secure the collection of information to an appropriate degree of accuracy, by the licensee so as:

   (a) to monitor the environmental performance of the NTS; and

   (b) to facilitate the development of an expenditure monitoring framework.

2. The licensee shall establish appropriate systems, processes and procedures to measure and record specified information from the dates specified in paragraph 4 of this Special Condition and in accordance with regulatory instructions and guidance (including any associated information specified therein).

3. For the purposes of this Special Condition:

(b) if any amount payable under standard condition 3 (Payments by licensee to the Authority) is unpaid 30 days after it has become due and remains unpaid for a period of 14 days after the Authority has given the licensee notice that the payment is overdue - provided that no such notice shall be given earlier than the sixteenth day after the day on which the amount payable became due;

(c) if the licensee fails:

(i) to comply with a final order (within the meaning of section 28 of the Act) or with a provisional order (within the meaning of that section) which has been confirmed under that section and (in either case) such failure is not rectified to the satisfaction of the Authority within three months after the Authority has given notice in writing of such failure to the licensee - provided that no such notice shall be given by the Authority before the expiration of the period within which an application under section 30 of the Act could be made questioning the validity of the final or provisional order or before the proceedings relating to any such application are finally determined; or

(ii) to pay any financial penalty (within the meaning of section 30A of the Act) by the due date for such payment and such
payment is not made to the Authority within three months after the Authority has given notice in writing of such failure to the licensee - provided that no such notice shall be given by the Authority before the expiration of the period within which an application under section 30E of the Act could be made questioning the validity or effect of the financial penalty or before the proceedings relating to any such application are finally determined;

(d) if the licensee fails to comply with:

(i) an order made by the Secretary of State under section 56, 73, 74 or 89 of the Fair Trading Act 1973; or

(ii) an order made by the court under section 34 of the Competition Act 1998;

(e) if the licensee:

(i) shall not have commenced business as a gas transporter within a period of 3 years from the date on which this licence takes effect; or

(ii) ceases to carry on its business as a gas transporter; or

(f) if the licensee:

(i) is unable to pay its debts (within the meaning of section 123(1) or (2) of the Insolvency Act 1986, but subject to paragraphs 2 and 3 of this schedule) or has any voluntary arrangement proposed in relation to it under section 1 of that Act or enters into any scheme of arrangement (other than for the purpose of reconstruction or amalgamation upon terms and within such period as may previously have been approved in writing by the Authority);

(ii) has a receiver (which expression shall include an administrative receiver within the meaning of section 251 of the Insolvency Act 1986) of the whole or any material part of its assets or undertaking appointed;
(iii) has an administration order under section 8 of the Insolvency Act 1986 made in relation to it;

(iv) passes any resolution for winding-up other than a resolution previously approved in writing by the Authority; or

(v) becomes subject to an order for winding-up by a court of competent jurisdiction; or

(g) if the licensee is convicted of having committed an offence under section 43 of the Act in making its application for the licence.

2. For the purposes of sub-paragraph 1(f)(i), section 123(1)(a) of the Insolvency Act 1986 shall have effect as if for “£750” there was substituted “£250,000” or such higher figure as the Authority may from time to time determine by notice in writing to the licensee.

3. The licensee shall not be deemed to be unable to pay its debts for the purposes of sub-paragraph 1(f)(i) if any such demand as is mentioned in section 123(1)(a) of the Insolvency Act 1986 is being contested in good faith by the licensee with recourse to all appropriate measures and procedures or if any such demand is satisfied before the expiration of such period as may be stated in any notice given by the Authority under paragraph 1.
