Proposed Grid Code Modifications H/04 and SA/2004 “Grid Code Changes to Incorporate New Generation Technologies and DC Inter-connectors (Generic Provisions)”

The three GB transmission licence holders (Scottish Power Transmission plc, Scottish Hydro-Electric Transmission Ltd and National Grid Company) have submitted reports [H/04](#)¹ and [SA/2004](#)² to the Authority for approval of proposed modifications to the appropriate Grid Codes. Ofgem intends to publish an Impact Assessment (IA) for consultation on these proposals and welcomes views as to this proposed course of action.
