## Cash Out Review Working Group - Inputs 4

## 14 February 2005, 10:30 -16:30

## Location: Elexon, 350 Euston Road, London

## AGENDA

10:30 - 10:40	Key points of the last meeting
10:40 – 11:30	Removing BSAD: Are there valid reasons to consider that BSAD should not be within cash out?
11:30 – 12:30	Aggregated vs. disaggregated BSAD: What are the arguments for and against aggregated and disaggregated BSAD? Would disaggregated BSAD be costly? Would disaggregation prevent timely provision of BSAD?
12:30 – 13:15	Lunch
13:15 – 14:15	Aggregated vs. disaggregated BSAD continued
14:15 – 15:15	Net vs. gross BSAD: What are the arguments for and against gross and net BSAD? Should the group reach consensus on the aggregated vs. disaggregated argument, does this draw a line under the issue?
15:15 – 16:00	Time constraining eligible actions for BSAD: Should there be time constraints on the actions that feed into BSAD? If contracts at a certain point beyond real time should they be reflected or not? Should the BSAD mechanism be more akin to the approach in the MIDS?
16:00 – 16:30	Non-BM standing reserve: Should non-BM reserve services feature in cash out?
