Dear David,

Consultation on Scottish nuclear site licence provisions agreement

I refer to the above consultation paper.

This response is submitted by SP Transmission & Distribution, which owns and operates ScottishPower's three network businesses in GB - SP Transmission Ltd, SP Distribution Ltd and SP Manweb plc.

We note the proposals made, and are supportive of them.

SP T&D has only one comment. The STC and CUSC definitions of the Scottish site licence agreements should conform, the CUSC definition following and using the STC generic definition of the Scottish nuclear agreements.

Yours sincerely

Dave Thornton
BETTA Programme Director
