 - (ii) if one or more relevant licence holders gives notice of objection to the Authority within that time:
 - (aa) the proportion (expressed as a percentage) of the relevant licence holders who have given notice of objection is less than twenty (20) per cent of all relevant licence holders; and

- (bb) the proportion (expressed as a percentage) of the relevant licence holders who have given notice of objection, weighted according to their market share, is less than twenty (20) per cent;

- (bb) that the modifications would remove or reduce the burden without removing any necessary protection.

4. Where at any time the Authority modifies under this condition the Standard Special Conditions in Part A: Standard Special Conditions applicable to both NTS and DN licensees in this licence or inserts new conditions into such Part A of this licence and makes equivalent changes to the corresponding Part A of other relevant gas transporter licences only, it:

5. Where at any time the Authority modifies conditions under paragraph 4 of this condition for the purposes of their incorporation in relevant gas transporter licences granted after that time, it shall publish the modifications in such manner as it considers appropriate.
6. This condition is intended largely to replicate, in relation to the Standard Special Conditions in Part A: Standard Special Conditions applicable to both NTS and DN licensees in this licence and other relevant gas transporter licences only, the statutory

CLM procedure. The Authority may issue guidance following consultation with relevant licence holders on the procedures that the Authority will follow in proposing and making collective licence modifications pursuant to the private collective licence modification procedure set out in this condition.

5. In the establishment and operation of the service in accordance with paragraph 1 the licensee shall not restrict, distort or prevent competition in the supply of gas.
6. The licensee shall prepare and submit a statement setting out details of the service to be provided in accordance with paragraph 1, and the licensee shall give or send a copy of such statement to any person requesting it.
7. The licensee shall take steps to inform users of the service of any change to the telephone number of the service established in accordance with paragraph 1 as soon as is practicable prior to such change becoming effective.
8. Subject to paragraph 9, the licensee shall make arrangements which will secure that in preventing an escape of gas in any premises to which it conveys gas (or, where it conveys gas to any primary sub-deduct premises, in any secondary sub-deduct premises to which the gas is subsequently conveyed) -
 - (a) the prevention is effected, so far as it is reasonably practicable and safe to do so -
 - (i) in such a way as to maintain the supply of gas to those premises and to appliances designed for use by domestic customers for heating or cooking; and
 - (ii) by carrying out any appropriate minor repairs to appliances;
 - (b) the prevention is effected, so far as is reasonably practicable, by a person adequately trained to recognise signs of leakage of carbon monoxide and instructed to report any such signs to the owner or occupier of the premises; and
 - (c) if further repair work is required, information is given to the owner or occupier of the premises or, in their absence, left at the premises, as to persons in the locality who are members of a class of persons permitted pursuant to regulations under the Health and Safety at Work etc Act 1974 to perform repairs on gas fittings.
9. Nothing in paragraph 8(a) shall oblige the licensee to carry out any work which cannot be completed within 30 minutes of entering the premises for the purpose of preventing the escape or would use materials costing more than £4.65, adjusted in accordance with standard condition 27 (Adjustment of Amounts by Reference to the

Retail Price Index) by reference to the day on which the premises were entered for that purpose.

10. **NOT USED**

11. **NOT USED**

12. Except in the case of changes reasonably consequential upon an extension or a restriction of its licence, which are made with effect from the effective date of the extension or the restriction, the licensee shall not make any material change in the arrangements except with the consent of the Authority.

13. The licensee shall use its best endeavours to ensure, so far as is reasonably practicable, that it conducts itself towards domestic customers in conformity with the arrangements.

14. Paragraph 15 shall apply in relation to relevant customers (defined in paragraph 21) and the premises of relevant customers.

15. The licensee shall ensure, so far as is reasonably practicable in the circumstances, having regard to the over-riding importance of safety, that where for reasons of safety (not being reasons relating solely to particular premises or a particular locality), the supply of gas to any relevant customer or the conveyance of gas to that customer's premises needs to be interrupted, reduced or restricted, the licensee shall, -

(a) when making such a request of a relevant supplier or shipper as is mentioned in paragraph 2 of standard condition 14 (Security and Emergency Arrangements) of the standard conditions of gas suppliers' licences or paragraph 2 of standard condition 5 (Obligations as Respects Emergencies etc) of the standard conditions of gas shippers' licences;

(c) when interrupting, reducing or restricting the conveyance of gas,

give priority to the maintenance of the supply of gas to, and the conveyance of gas to the premises of, relevant customers or classes of relevant customers in accordance

with, and to the extent specified in the list required by paragraph 17, and (to the extent that they supersede or supplement such list) such directions as may from time to time have been given by the Secretary of State under paragraph 19 or 20.

16. Where the reasons of safety referred to in paragraph 15 relate to the whole or a substantial part of Great Britain or there is a significant shortage of gas affecting the whole or a substantial part of Great Britain, the licensee shall so far as is reasonably practicable in the circumstances having regard to the over-riding importance of safety -
 - (a)
 - (i) consult the network emergency co-ordinator; or
 - (ii) where the licensee is the network emergency co-ordinator, inform and if appropriate consult the Secretary of State,on the taking of any such steps as are mentioned in sub-paragraph (a) or (b) of that paragraph; and

- 21. In this condition –
 - (a) “**network emergency co-ordinator**” shall be construed in the same manner as that term is construed in the Gas Safety (Management) Regulations 1996; and
 - (b) “**relevant customer**” includes –
 - (i) any person who is supplied by a relevant supplier with gas conveyed to a particular supply point at a rate which is reasonably expected to exceed 732,000 kilowatt hours a year, to the extent that the terms on which that person is supplied permit such supply to be interrupted or reduced only in pursuance of such a term as is mentioned in paragraph 3 of standard condition 14 (Security and Emergency Arrangements) of the standard conditions of gas suppliers’ licences or in pursuance of directions given under section 2(1)(b) of the Energy Act 1976; and

Standard Special Condition A9. Pipe-Line System Security Standards

1. The licensee shall, subject to section 9 of the Act, plan and develop its pipe-line system so as to enable it to meet, having regard to its expectations as to –
 - (a) the number of premises to which gas conveyed by it will be supplied;
 - (b) the consumption of gas at those premises; and
 - (c) the extent to which the supply of gas to those premises might be interrupted or reduced (otherwise than in pursuance of such a term as is mentioned in paragraph 3 of standard condition 14 (Security and emergency arrangements) of the standard conditions of gas suppliers' licences or of directions given under section 2(1)(b) of the Energy Act 1976) in pursuance of contracts between any of the following persons, namely, a gas transporter, a gas shipper, a gas supplier and a customer of a gas supplier,the gas security standard mentioned in paragraph 2.
2. The gas security standard referred to in paragraph 1 is that the pipe-line system to which this licence relates (taking account of such operational measures as are available to the licensee including, in particular, the making available of stored gas) meets the peak aggregate daily demand, including, but not limited to, within day gas flow variations on that day, for the conveyance of gas for supply to premises which the licensee expects to be supplied with gas conveyed by it –
 - (a) which might reasonably be expected if the supply of gas to such premises were interrupted or reduced as mentioned in paragraph 1(c); and
 - (b) which, (subject as hereinafter provided) having regard to historical weather data derived from at least the previous 50 years and other relevant factors, is likely to be exceeded (whether on one or more days) only in 1 year out of 20 years,so, however, that if, after consultation with all gas suppliers, gas shippers and gas transporters, with the Health and Safety Executive and with the Consumer Council, the Authority is satisfied that security standards would be adequate if sub-paragraph (b) were modified by the substitution of a reference to data derived from a period of less than the previous 50 years or by the substitution of some higher probability for the probability of 1 year in 20 years, the Authority may, subject to paragraph 3, make such modifications by a notice which –
 - (i) is given and published by the Authority for the purposes of this condition generally; and

- (ii) specifies the modifications and the date on which they are to take effect.
- 3. Paragraph 2(b) shall only be modified if, at the same time, the Authority makes similar modifications to –
 - (a) paragraph 6(b) of standard condition 14 (Security and Emergency Arrangements) and paragraph 5(a) of standard condition 32A (Security of Supply – Domestic Customers) of the standard conditions of gas suppliers' licences; and
 - (b) sub-paragraph (b) of the definition of “security standards” in standard condition 1 (Definitions and Interpretation) of the standard conditions of gas shippers' licences.
- 4. For the purposes of paragraph 1, the licensee may have regard to information received from the operator of a pipe-line or pipe-line system to which it conveys gas as respects the quantity of gas which it expects to require.

Standard Special Condition A10. Provision and Return of Meters

1. Subject to paragraph 2, the licensee shall comply with any reasonable request by a relevant supplier (or a gas supplier who is about to become such a relevant supplier) to provide through a meter asset manager and install at the premises of a domestic customer a gas meter owned by the licensee and of a type specified by the supplier subject, however, to a meter of that type being reasonably available to the licensee and the supplier agreeing to pay its charges in respect of the meter.

1A For the purposes of paragraph 1, “**meter asset manager**” means:

- (a) a person approved by the Authority as possessing expertise satisfactorily to provide meter-related services or a class or description of persons so approved (the “**relevant expertise**”); or
- (b) an undertaking approved by the Authority as having staff possessing the relevant expertise

and for the purposes of this definition,

- (i) “**approved by the Authority**” means approved by it for the purposes of this condition generally and “**staff**” includes officers, servants and agents; and
- (ii) “**meter-related services**” means the provision, installation, commissioning, inspection, repairing, alteration, repositioning, removal, renewal and maintenance of the whole or part of the Supply Meter Installation as defined in Section M, paragraph 1.2 of the Network Code of Transco plc, as at 12 July 2004, as defined within Amended Standard Condition 9 (Network Code) of Transco plc’s gas transporter licence on that date.

2. Paragraph 1 shall not apply where -

- (a) the premises in question are secondary sub-deduct premises; and

- (b) the owner or occupier of the premises has not agreed that the licensee may enter the premises for the purpose of removing the meter when the owner or occupier no longer requires the meter or the supply of gas.
- 3. Where any gas meter owned by the licensee is disconnected by, or returned to, the licensee it shall promptly make an appropriate record of the details displayed on the register of the meter at the time of disconnection or return and of such other information in its possession as shall subsequently enable the identity of, and the date of disconnection or return of, the meter and the premises from which it was disconnected to be ascertained, and shall keep such a record for a period of not less than 2 years from the date of the disconnection or return, whichever is the later.
- 4. Where the licensee has reasonable cause to believe that any gas meter owned by it and disconnected by, or returned to, it is or may be relevant to -
 - (a) any investigation, proceedings or possible proceedings relating to the alleged theft of gas by any person or to an alleged offence under paragraph 10(1) of Schedule 2B to the Act; or
 - (b) any dispute as to the accuracy of the meter,the licensee shall use all reasonable endeavours to keep the meter in safe custody in the standard condition in which it was when disconnected or returned and with the register unaltered -
 - (i) during the period of 6 months beginning with the date on which the meter was disconnected or returned, for as long as the licensee continues to have reasonable cause to believe that the meter is or may be so relevant; and
 - (ii) thereafter, for as long as, to the licensee's knowledge, the meter is so relevant.
- 5. When the licensee receives, in connection with a proposed connection or disconnection of a meter, such a notice as is mentioned in sub-paragraph (1) of paragraph 12 of Schedule 2B to the Act or receives information in pursuance of sub-paragraph (3) of that paragraph, it shall promptly give the relevant shipper a copy thereof and furnish it with any further information relating to the meter which is requested by the relevant shipper and which the licensee either has or may readily obtain.

6. Where the record kept by the licensee under paragraph 8 of Standard Special Condition A50 (System Development Obligations) shows that a relevant supplier has supplied gas to particular premises for less than 2 years and that the supplier has not, since it began to supply gas to those premises, secured an inspection of the meter for the purposes of standard condition 17 (Reading, Inspection and Testing of Meters) of the standard conditions of Gas Suppliers' licences as incorporated in its licence, the licensee shall give to the relevant shipper, for transmission to the supplier (except where the recipient of the notice is itself the supplier), not less than 4 months' notice of the date by which the next such inspection should be carried out, being a date falling not more than 2 years after the date shown in the licensee's record as the date of the last such inspection or, if later, 5 months after the licensee is informed that the supplier has begun to supply gas to the premises.

Standard Special Condition A11. Network Code and Uniform Network Code

Transportation Arrangements

1. The licensee shall establish transportation arrangements, pursuant to paragraphs 3 and 6 of this condition, in respect of matters other than those to which Standard Special Conditions A4 (Charging – General) and A5 (Obligations as Regard Charging Methodology) relate, which are calculated, consistent with the licensee's duties under section 9 of the Act, to facilitate the achievement of the following objectives –
 - (a) the efficient and economic operation of the pipe-line system to which this licence relates;
 - (b) so far as is consistent with sub-paragraph (a), the coordinated, efficient and economical operation of (i) the combined pipe-line system, and/ or (ii) the pipe-line system of one or more other relevant gas transporters;
 - (c) so far as is consistent with sub-paragraphs (a) and (b), the efficient discharge of the licensee's obligations under this licence;

 - (e) so far as is consistent with sub-paragraphs (a) to (d), the provision of reasonable economic incentives for relevant suppliers to secure that the domestic customer supply security standards (within the meaning of paragraph 4 of standard condition 32A (Security of Supply – Domestic

Customers) of the standard conditions of Gas Suppliers' licences) are satisfied as respects the availability of gas to their domestic customers; and

- (f) so far as is consistent with sub-paragraphs (a) to (e), the promotion of efficiency in the implementation and administration of the network code and/or the uniform network code;

hereinafter referred to as the “**relevant objectives**”.

- 2. In relation to a proposed modification of the network code modification procedures, a reference to the relevant objectives is a reference to the requirements in paragraphs 9 and 12 of this condition (to the extent that those requirements do not conflict with the objectives set out in paragraph 1).

Network Code

- 3. Subject to paragraph 4, in respect of the pipe-line system to which this licence relates, the licensee shall, by the date at which this condition becomes effective (unless the Authority consents otherwise in writing), have prepared a document (the “**network code**”) setting out (together with the terms of any other arrangements which the licensee considers it appropriate to set out in the document):

5. The network code prepared by or on behalf of the licensee shall incorporate by reference the terms of the uniform network code except where the Authority consents otherwise in writing; and references in the conditions of this licence to the network code include the uniform network code (as may be varied from time to time) as so incorporated, unless otherwise stated.

Uniform Network Code

6. The licensee shall, together with the other relevant gas transporters, by the date at which this condition becomes effective (unless the Authority consents otherwise in writing), have prepared a document (the “**uniform network code**”) setting out:
 - (a) the terms of transportation arrangements established by the licensee and other relevant gas transporters, to the extent that such terms are common, or are not in conflict, between relevant gas transporters; and

The licensee shall, together with the other relevant gas transporters, establish and operate procedures (“**network code modification procedures**”), for the modification of the uniform network code and/or of any network code prepared by or on behalf of each relevant gas transporter (including modification of the network code

modification procedures themselves) so as to better facilitate, consistent with the licensee's duties under section 9 of the Act, the achievement of the relevant objectives.

8. In accordance with paragraphs 5 and 6, unless the Authority consents otherwise in writing, the network code modification procedures shall be contained in the uniform network code.
9. The network code modification procedures shall provide for:
 - (a) a mechanism by which any of
 - (i) the uniform network code; and

 - (c) the making of alternative modification proposals in accordance with paragraphs 10(b) and 11(b) of this condition, except in a case where the Authority otherwise directs in writing;
 - (d) the giving of adequate publicity to any such proposal including, in particular, drawing it to the attention of all relevant gas transporters and all relevant shippers and sending a copy of the proposal to any person who asks for one;
 - (e) the seeking of the views of the Authority on any matter connected with any such proposal;
 - (f) the consideration of any representations relating to such a proposal made (and not withdrawn) by the licensee, any other relevant gas transporter, any

relevant shipper, or any gas shipper or other person likely to be materially affected were the proposal to be implemented; and

- (g) where the Authority accepts that the uniform network code or a network code prepared by or on behalf of a relevant gas transporter may require modification as a matter of urgency, the exclusion, acceleration or other variation, subject to the Authority's approval, of any particular procedural steps which would otherwise be applicable.

Determinations by the Authority

18. Where a provision of the network code prepared by or on behalf of the licensee (excluding the terms of the uniform network code incorporated within it) and/or the uniform network code requires that, in circumstances specified in the provision, a determination by the licensee pursuant to that provision in a particular case should be such as is calculated to facilitate the achievement of the relevant objectives, any question arising thereunder as to whether the licensee has complied with that requirement shall be determined by the Authority.

19. The network code modification procedures shall provide that any question arising under the network code modification procedures as to:
- (a) whether a gas shipper or other person is likely to be materially affected by a proposal to modify the network code prepared by or on behalf of the licensee (excluding the terms of the uniform network code incorporated within it) and/or the uniform network code were it to be implemented; or

2. The licensee shall by 31 July of each year submit to the Authority a certificate, approved by a resolution of the board of directors of the licensee and signed by a director of the licensee pursuant to that resolution, in one of the following forms:
 - (a) “After making enquiries, and having taken into account in particular (but without limitation) any dividend or other distribution which might reasonably be expected to be declared or paid by the licensee, the directors of the licensee have a reasonable expectation that the licensee will have sufficient financial resources and financial facilities available to itself to enable the licensee to carry on the activities authorised by the licence(s) held in accordance with its obligations under the Act and such licence(s) for a period of 12 months from the date of this certificate.”
 - (b) “After making enquiries, and having taken into account in particular (but without limitation) any dividend or other distribution which might reasonably be expected to be declared or paid by the licensee, the directors of the licensee have a reasonable expectation, subject to what is explained below, that the licensee will have sufficient financial resources and financial facilities available to itself to enable the licensee to carry on the activities authorised by the licence(s) held in accordance with its obligations under the Act and such licence(s) for a period

of 12 months from the date of this certificate. However, they would like to draw attention to the following factors which may cast doubt on the ability of the licensee to carry on the activities authorised by the licence(s) held in accordance with its obligation under the Act and such licence(s).”

- (c) “In the opinion of the directors of the licensee, the licensee will not have sufficient financial resources and financial facilities available to itself to enable the licensee to carry on the activities authorised by the licence(s) held in accordance with its obligation under the Act and such licence(s) for a period of 12 months from the date of this certificate.”

- (ii) that the making of a distribution of [] on [] will not, either alone or when taken together with other circumstances reasonably foreseeable at the date of this certificate, cause the licensee to be in breach to a material extent of any of those obligations in the future.”

(b) The certificate shall be signed by a director of the licensee and must have been approved by a resolution of the board of directors of the licensee passed not more than 14 days before the date on which the declaration, recommendation or payment will be made.

(c) Where the certificate has been issued in respect of the declaration or recommendation of a dividend, the licensee shall be under no obligation to issue a further certificate prior to payment of that dividend, provided that such payment is made within six months of the issuing of that certificate.

1. The licensee shall be obliged to comply with this condition from the date specified in a notice in writing issued by the Authority (such date not to be a date preceding the date on which this condition becomes effective in respect of the licensee) for the purposes set out in paragraph 2.
2. Those purposes are:
 - (a) to ensure that the licensee (in respect of the pipe-line system to which this licence relates) maintains (and secures that any affiliate or related undertaking of the licensee maintains) such accounting records, other records, and reporting arrangements as are necessary to enable the licensee to prepare price control review information for submission to the Authority in accordance with the requirements of this condition. For the avoidance of doubt, any licensee who is a DN operator and operates one or more Distribution Networks (as defined in Special Condition E2A) in a single legal entity, shall be obliged to comply with the requirements of this condition in respect of each Distribution Network and no consolidation or aggregation shall be permitted and all references to “licensee” in this condition shall be construed on this basis;
 - (b) to establish, by a date specified by the Authority pursuant to paragraph 1, a common set of rules which are to apply to the collection and preparation of price control review information for submission to the Authority by the licensee and every other relevant gas transporter (“**the price control review reporting rules**”);

and thereby:
 - (c) to facilitate any review or modification by the Authority of the requirements of any of the charge restriction conditions of this licence (“**a price control review**”).

- (a) keep or cause to be kept for a period approved by the Authority, but not less than the period referred to in section 222(5)(b) of the Companies Act 1985 and in the manner referred to in that section, such accounting records and other records as are necessary to ensure that the price control review information of, or reasonably attributable to, each of the businesses referred to in paragraph 1 of Standard Special Condition A30, is separately identifiable in the accounting records of the licensee (and of any affiliate or related undertaking of the licensee); and
 - (b) prepare and submit to the Authority, on a consistent basis from such accounting records, price control review information for such aspects of the licensee's business, and of the business of each affiliate or related undertaking of the licensee that either directly or indirectly provides goods and services to the licensee or forms part of the licensee's business, either separately or consolidated, and in such manner as may be required under the price control review reporting rules, and in respect of each financial year (save in the financial year in which the date specified by the Authority pursuant to paragraph 1 occurs, for which only the remaining days of that financial year shall apply for the purposes of this paragraph, and where estimates derived by the licensee may be used as appropriate, if the price control review information required is not available on a reasonable endeavours basis).

Part C: Delivery and review of price control review information

 - (b) shall (and must procure, insofar as it is able to do so, that any affiliate or related undertaking of the licensee, any person by whom it procures the performance of any obligation under this condition, and any auditor of such person, or of the licensee or any affiliate or related undertaking of the licensee, shall) co-operate fully with the Authority or (as the case may be) with the reviewer so as to enable him to carry out and complete his review for the Authority.
7. Where a reviewer has been nominated in accordance with paragraph 5, the licensee's performance of its obligations under paragraph 6 in relation to the reviewer is conditional on the reviewer having entered into an agreement with the licensee to maintain confidentiality on reasonable terms.

Part D: Establishment of the price control review reporting rules

8. The price control review reporting rules shall be the rules of that name, issued by direction of the Authority in accordance with the provisions of paragraph 9 for the purposes of this condition generally, as from time to time modified by the Authority in accordance with the provisions of Part F of this condition, and with which the licensee and every other relevant gas transporter shall be required to comply for the purposes of collecting and preparing price control review information for submission to the Authority.
9. Before issuing a direction under paragraph 8, the Authority must have:
 - (a) given notice to all relevant gas transporters:
 - (i) stating that it intends to issue the price control review reporting rules,

- (ii) setting out the contents of those rules and the date on which it is proposed that the direction should take effect, and

 - (c) requirements as to the form and manner in which such information must be recorded;

- (d) requirements as to the standards of accuracy and reliability with which such information must be recorded;
- (e) requirements as to the form and the content of such information;
- (f) requirements as to the manner in which such information must be provided to the Authority; and
- (g) requirements as to those parts of such information which may fall to be considered by a reviewer and the nature of that consideration;

and (having particular regard to the provisions of section 105 of the Utilities Act 2000) may also specify which (if any) of the information provided under this condition is to be subject to publication by the Authority.

12. The price control review reporting rules may not:

- (a) exceed what is necessary to achieve the purposes of this condition, having regard in particular to the materiality of the costs likely to be incurred by the licensee in complying therewith; or
- (b) purport to have effect with respect to the interpretation of any other condition of this licence or the fulfilment by the licensee of any obligation imposed in respect of any matter which is the subject of any such condition.

Part F: Modification of the price control review reporting rules

13. The Authority may modify, in whole or in part, any price control review reporting rules established in accordance with Part D of this condition, in accordance with the following provisions of this Part F.

14. Subject to paragraph 15, where the Authority considers that it is necessary to modify the price control review reporting rules in order to provide more accurate, consistent, useful or comparable information for the purposes of a price control review, it may do so by issuing a direction to that effect where it:

- (a) has first given notice to all relevant gas transporters:
 - (i) stating that it proposes to make the modification,

- (ii) setting out the text of the modification, the purpose and effect of the modification and the date on which it is proposed to come into effect, and
 - (iii) specifying the period (not being less than 28 days from the date of the notice) within which representations or objections with respect to the proposed modification may be made;
 - (b) has considered any representations or objections which are duly made and not withdrawn; and
 - (c) has given reasons for its decisions.
15. Where a modification of the price control review reporting rules relates to the introduction into those rules of a requirement to provide:
- (a) a new category of price control review information; or
 - (b) an existing category of price control review information to a greater level of detail;
- and in either case such information has not previously been collected by the licensee (whether under the provisions of the price control review reporting rules or otherwise), it shall not be a breach of that requirement for the licensee to provide estimates in respect of that category, for the year in which the modification is made and for any preceding year, derived from such other information available to the licensee as may be appropriate for that purpose.

Part G: Interpretation

16. A consent under paragraph 3 or 4 may be given in relation to some or all of the requirements of the relevant paragraph and subject to such conditions as the Authority considers appropriate or necessary having regard to the purposes of this condition.
17. For the purposes of this condition:

“price control review information” means the information required to be submitted by the licensee pursuant to this condition, and is to be interpreted in accordance with the price control review reporting rules.

3. Where the licensee receives a valid claim it shall, during the relevant year, make a consequential increase to its transportation charges during that year which relate to the conveyance of gas to premises (and secondary sub-deduct premises to which gas is conveyed as contemplated by sub-deduct arrangements) to such an extent as it reasonably estimates to be appropriate to secure that such consequential increase in its revenue equals the specified amount.
4. The licensee shall, during, or as soon as practicable after the end of, the relevant year, pay to the claimant, by quarterly or monthly instalments (as specified in the claim), the amount of that consequential increase in revenue mentioned in paragraph 3 to the extent that it does not exceed the specified amount.
5. If the amount paid to the claimant under paragraph 4 is less than the specified amount, the licensee shall in the following financial year –
 - (a) pay to the claimant (in accordance with any directions given by the Authority) the shortfall together with 12 months’ interest thereon; and
 - (b) increase the charges referred to in paragraph 3 during the year following the relevant year to such extent as it reasonably estimates to be appropriate to secure that the consequential increase in its revenue equals the amount of that shortfall together with 12 months’ interest thereon.
6. If the amount of the consequential increase mentioned in paragraph 3 exceeds the

specified amount, the licensee shall, during the year following the relevant year, decrease the charges referred to in paragraph 3 to the extent that it reasonably estimates to be necessary in order to reduce its transportation revenue for that year by an amount equal to the excess together with 12 months' interest thereon.

7. Any question whether any estimate for the purposes of paragraph 3, 5 or 6 is a reasonable one shall be determined by the Authority.
8. The licensee shall not enter into any transportation arrangements which do not permit variation of its transportation charges in pursuance of this condition.
9. The provisions of this condition shall have effect notwithstanding that the licensee has not provided any notice required by paragraph 2 of Standard Special Condition A4 (Charging – General).
10. In calculating the licensee's transportation revenue during any period for the purposes of a price control condition any increase or decrease in revenue attributable to the licensee's compliance with this condition shall be treated as if it had not occurred.
11. The licensee shall prepare, in respect of each year in which it increases or decreases charges in pursuance of paragraph 3, 5 or 6, a statement showing –
 - (a) the aggregate amount of its revenue derived from increases in charges in pursuance of paragraph 3;
 - (b) the aggregate amount of its revenue derived from increases in charges in pursuance of paragraph 5;
 - (c) the aggregate amount of the decrease in its revenue resulting from decreases in charges in pursuance of paragraph 6, and
 - (d) in the case of each last resort supply payment, the aggregate payments to the claimant made in respect of the year in question (whenever those payments were made).
12. The licensee shall give the statements referred to in paragraph 11 to the Authority within the first 4 months of the year following that to which they relate.

13. On giving the statement mentioned in paragraph 11(d) to the Authority, the licensee shall publish it in such manner as, in the reasonable opinion of the licensee, will secure adequate publicity for it.
14. Where the licensee receives more than one claim for a last resort payment, this condition (other than sub-paragraphs 11(a), (b) and (c)) shall apply separately as respects each separate claim but in so far as it results in changes to the licensee's transportation charges it shall have the cumulative effect of such separate applications.
15. (a) For the purposes of this condition –
- “last resort supply direction”** and **“last resort supply payment”** have, respectively, the meanings given to them in standard conditions 29 (Supplier of Last Resort) and 29A (Supplier of Last Resort Supply Payments) of the standard conditions of the gas suppliers licence;
- “price control condition”** means any condition of the licence which places a monetary limitation on the transportation charges which may be levied or the transportation revenue which may be recovered by the licensee during a given period;
- “relevant year”** means, in relation to any valid claim –
- (i) where the claim was received by the licensee at least 60 days before the beginning of a year, that year; or
 - (ii) where the claim was received by the licensee less than 60 days before the beginning of a year, the next year;

“specified amount” means the amount specified on a valid claim together with interest calculated in accordance with paragraph 4;

“valid claim” means a claim for which a claimant has been given a consent by the Authority pursuant to standard condition 29A (Supplier of Last Resort

Supply Payments) of the standard conditions of the gas suppliers licence; and

“**year**” means a period of 12 months beginning on 1st April.

- (b) The interest referred to in sub-paragraph (a) is simple interest for the period commencing with the date on which the claim was received by the licensee and ending with the date which is 61 days before the start of the relevant year, except where that period is of 30 days or less, in which case no interest shall be payable.
16. For the avoidance of doubt, the arrangements for administering increases to transportation charges in order to compensate any gas supplier which claims for losses that it has incurred in complying with a last resort supply direction, under the provisions of this condition, shall be administered by the agency (as defined in Standard Special Condition A15 (Agency)), unless the Authority otherwise consents in writing.
